Said stairway shall service the front entrance and shall extend into the public way approximately five (5) feet, three (3) inches in length and nine (9) feet in width. Authority herein granted shall be for a period of five (5) years from and after December 6, 1998.

The location of said privilege shall be as shown on print hereto attached, which by reference is hereby incorporated and made a part of this ordinance. Such privilege and the structures and appliances herein authorized shall be maintained and used in accordance with all applicable laws, including the ordinances of the City of Chicago, and the directions of the Commissioner of Streets and Sanitation, the Commissioner of Buildings, the Commissioner of Transportation and the Director of Revenue. The grantee shall keep that portion of the public way in, over, under or adjacent to said privilege in good condition and repair, safe for public travel, free from snow, ice and debris to the satisfaction of the Commissioner of Streets and Sanitation.

SECTION 2. The grantee shall pay to the City of Chicago as compensation for the privilege herein granted the sum of Two Hundred Thirty-two and no/100 Dollars ($232.00) per annum, in advance. In case of termination of the privilege herein granted or the grantee transfers title or vacates its property, the grantee shall, nevertheless, remain liable to the City of Chicago for the annual compensation which shall become due and payable under the provisions hereof, until the structures and appliances herein authorized are removed and the public way is restored as herein required. Further renewal authority for the continued maintenance and use of the public ways as herein described shall be obtained prior to the date of expiration of this ordinance.

SECTION 3. This ordinance is subject to amendment, modification or repeal, and permission and authority herein granted may be revoked by the Mayor of the City of Chicago or the Director of Revenue at their discretion, at any time without the consent

Landscape Character.

Courtyard "A".

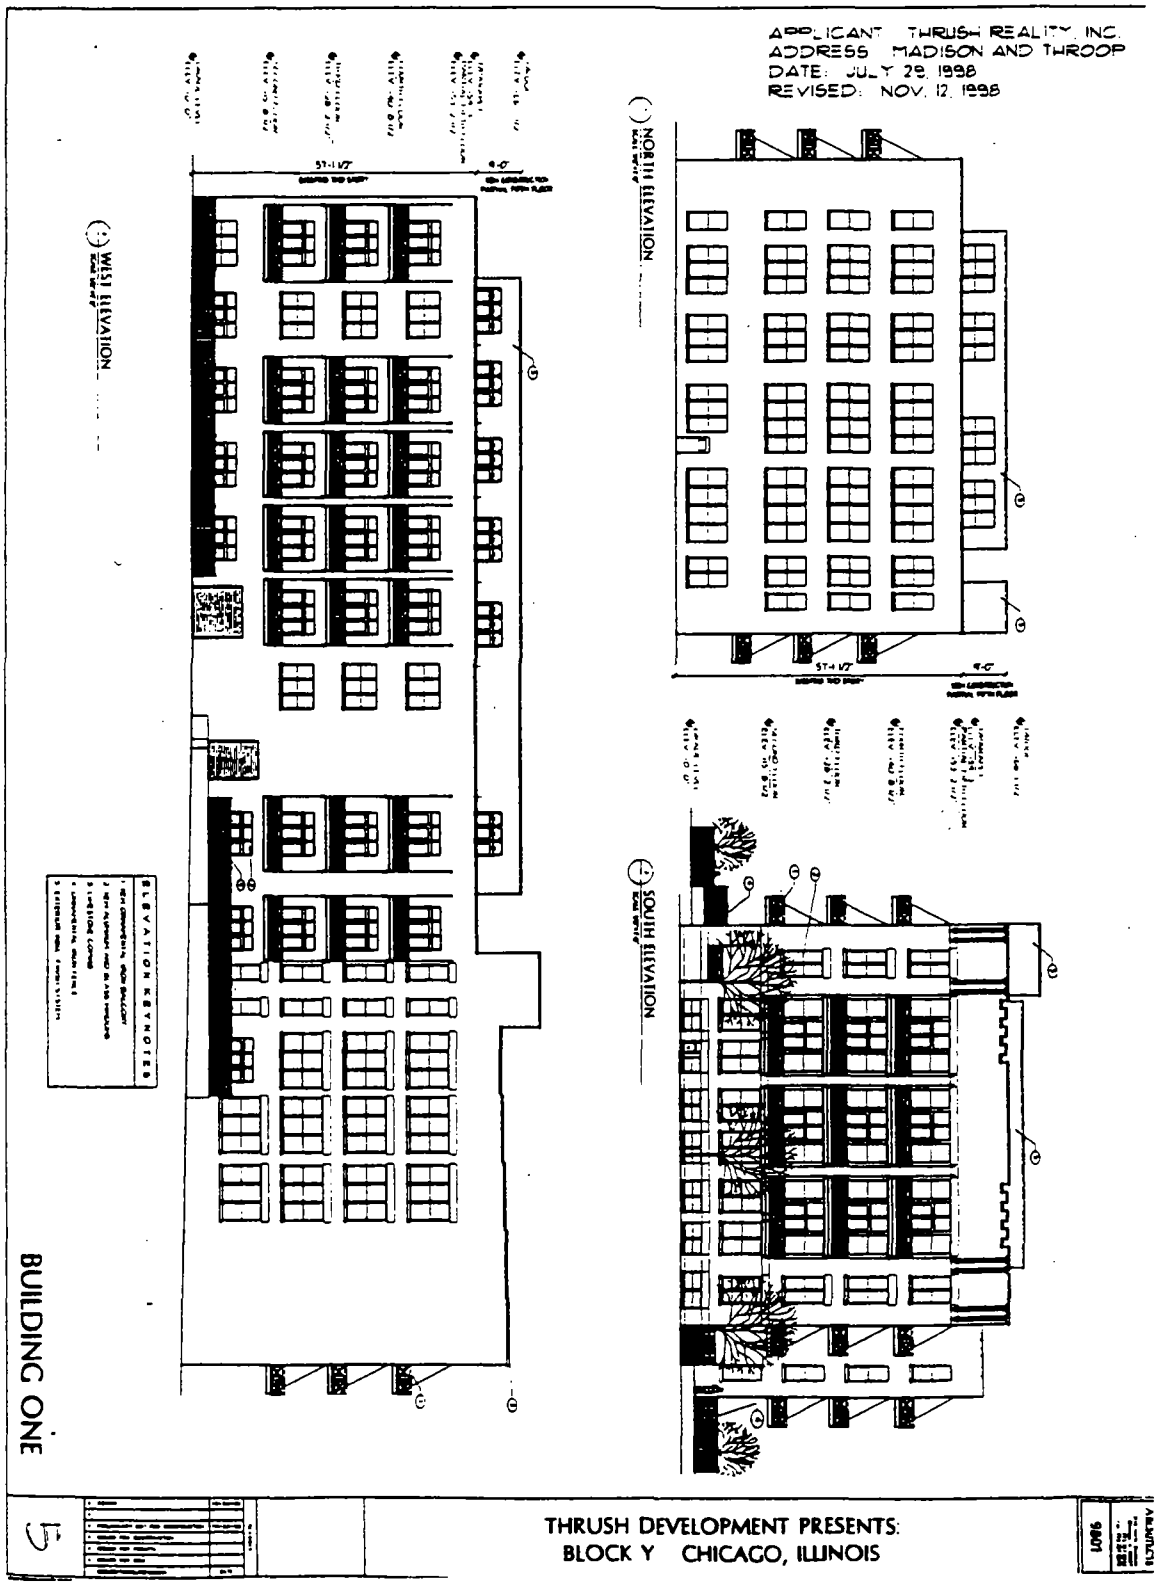

This formal courtyard is defined by a double line of concentric trees. The outside perimeter will be formed by large deciduous trees to provide privacy from the inside of the dwellings and frame the space with a consistent canopy. The inside perimeter will be created by ornamental trees to provide an intimate scale for pedestrians and people sitting on the benches at the edge of the path. The character of the courtyard is inward, introverted and passive, focusing on an open space outlined by planting beds with all year-round interest. A water feature will be added as part of the amenities at the heart of the courtyard.

Courtyard "B".

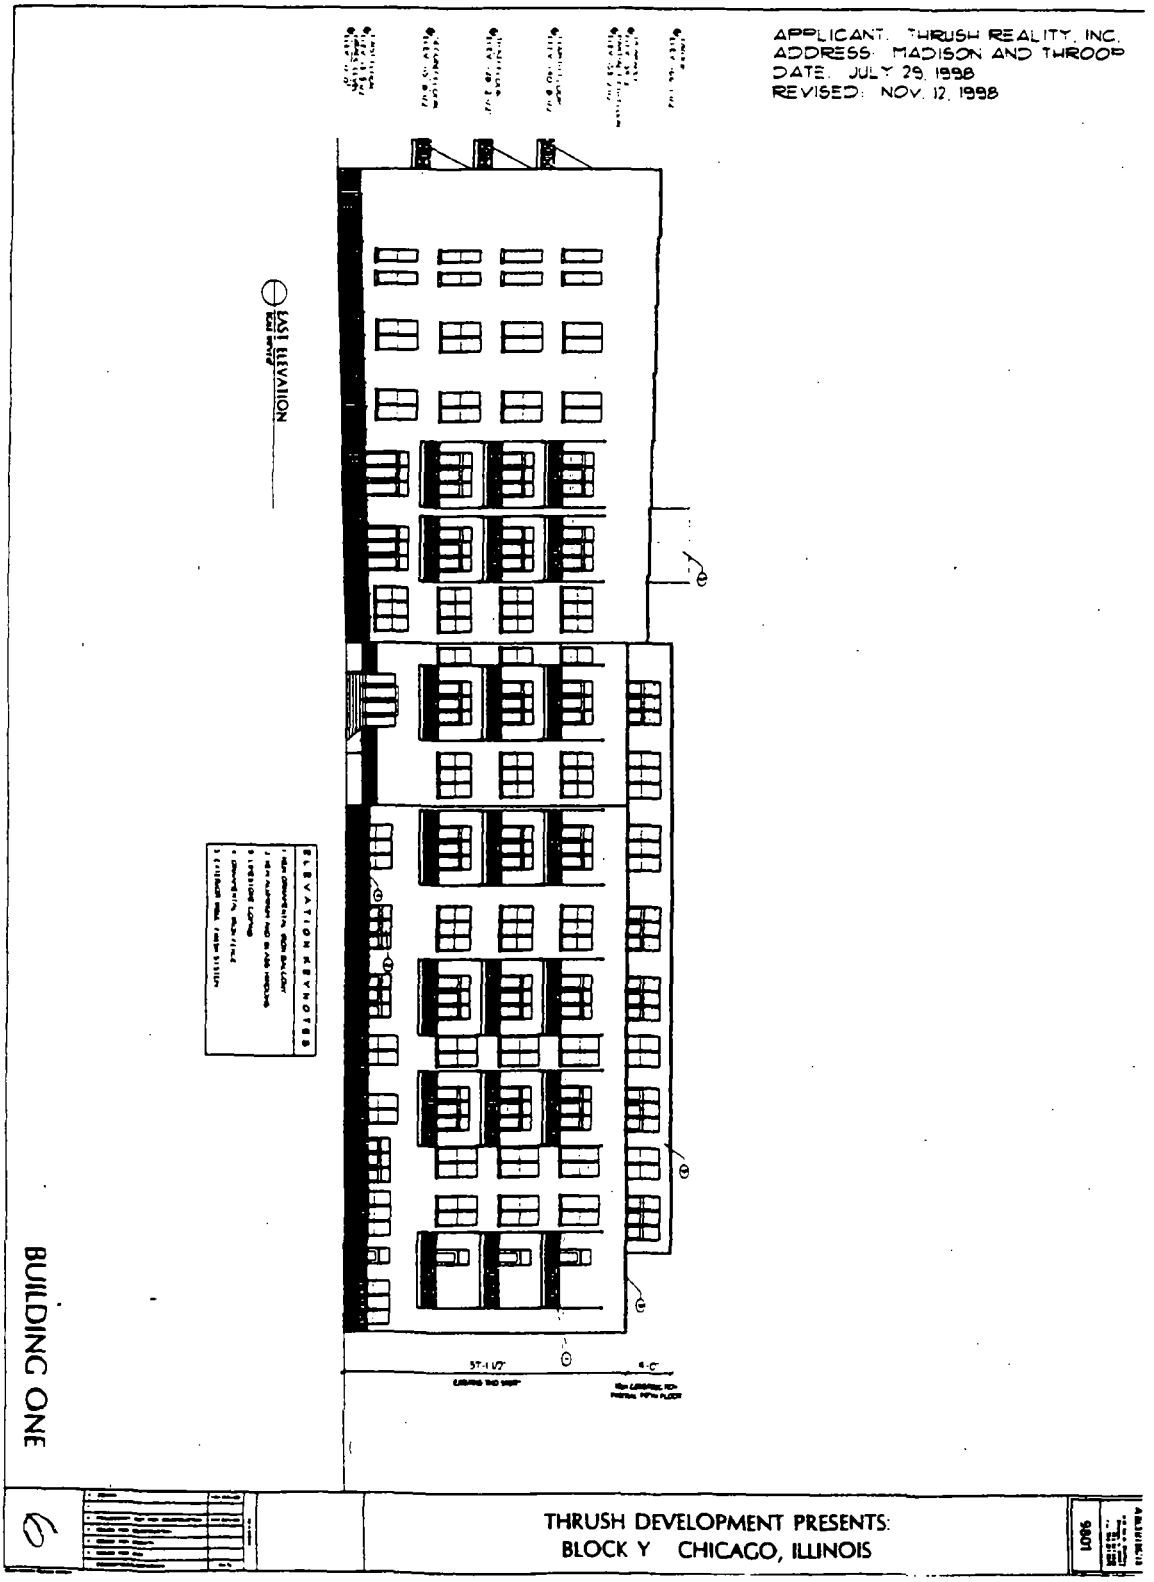

The space is generated by the need to screen the public alley and create an intersecting backdrop for passive activities in the courtyard. A strong mixed shrub border with some evergreen, deciduous and ornamental trees will define the north edge of the courtyard and provide seasonal interest. The courtyard itself will be shaped with undulating mounds highlighted with free-form planting beds of perennials and ornamental grasses. These planting themes will render a meadow character to this space to be used as a contemplating place amidst the noise of the city.

10. The improvements on the Property shall be designed, constructed and maintained in general conformance with the plans and exhibits set forth in Statement Number 4.

    In addition, the development of the Property shall be subject to the following:

    (a) Parking. Off-street parking shall be provided upon the Property in accordance with the provisions of this statement and the Bulk Regulations and Data Table and shall also be subject to the standards set forth below:

(i) Interim outdoor, at-grade, off-street parking existing on the Property on the date of this amended Planned Development may be maintained as is for a period not to exceed five (5) years; provided, however, that the Commissioner may authorize the continuation of such interim parking for additional periods where deemed appropriate. Any new interim outdoor, at-grade, off-street parking shall be located, landscaped and maintained in a manner consistent with the vehicular use area landscaping and screening provisions of the Chicago Zoning Ordinance and associated regulations.

(ii) Permanent at-grade, off-street parking which is visible from a public right-of-way is permitted subject to the following limitations. Such parking shall be set back at least twenty (20) feet from any adjacent public right-of-way. Such setback shall be bermed to a height of at least two (2) feet above the grade of the adjacent sidewalk and shall be landscaped with one (1) two and one-half (2½) inch caliper tree for every twenty-five (25) feet of frontage along the public way, shrubs and ground cover to provide a continuous screen of at least two and one-half (2½) feet in height total, including the berm, so as to substantially screen the parking lot from view from the adjacent right-of-way. In addition to appropriate landscaping, a decorative fence a minimum of four (4) feet high shall be constructed along the top of the berm to further enhance the screening of the adjacent parking. In lieu of the screening described above, the Department may approve an alternative treatment including, but not limited to, vine-covered fences or trellises, structural walls or screens upon a finding that such alternative treatment would:

(1) provide an effective visual screen of the parking areas and parked automobiles;

(2) promote the physical definition of a continuous street wall;

(3) provide a visual effect which promotes and enhances the vehicular and pedestrian experience through the use of quality architectural and urban design; and

(4) be appropriately designed and maintained to satisfy applicable building and/or landscape industry standards.

(iii) Off-street parking required to serve uses developed on the Property shall be located on the same side of the Metra tracks as the use served. For residential uses, parking shall be located within six hundred (600) feet walking distance of the residential use served. Parking required to serve non-residential uses shall be located within one thousand five hundred (1,500) feet walking distance of the non-residential use served.

(iv) The applicant is encouraged to conceal parking structures either by fronting them with habitable space or by enclosing the openings with glazing. Where the exterior walls of any parking structure face or will be substantially visible from a public right-of-way, such walls shall be designed and detailed to be similar in appearance to habitable spaces above, adjacent, or in the vicinity of the garage. Such similar design elements shall include, but not be limited to: materials, size, shape, number, and pattern of window openings, cornices, moldings, reveals, sills and other decorative surface treatments. Glazing at window openings is strongly encouraged. Window frames, metal screens or other decorative screening devices should be considered where glazing is not utilized. Ramps, cars and headlights shall be entirely screened and ceiling lights shall be substantially screened from view from pedestrians on the public way and from adjacent residential units.

Where parking structures are located in a building with one hundred (100) or more feet of frontage which fronts on Clark Street, Wells Street or Roosevelt Road, a minimum of twenty percent (20%) of the linear distance of said frontage shall be occupied by active uses. Active uses shall include lobbies, entry areas and passageways, elevator and stair areas, retail, services, restaurants, amusement establishments and

institutional or cultural uses. A minimum of seventy-five percent (75%) of the linear distance of said required active use shall be glazed with clear glazing between two (2) feet, six (6) inches and eight (8) feet, zero (0) inches above the sidewalk level. Access to parking structures may be located along any public or private street.

The following design features are strongly encouraged wherever feasible: set back of parking structures above ground floor retail with rooftop planting terraces.

(v) The location of driveways serving any freestanding parking structure which contains more than seven hundred fifty (750) non-accessory parking spaces shall be subject to the review and approval of the Department of Transportation. In that connection, the Department of Transportation may request traffic impact data or analyses.

(b) Loading. Off-street loading shall be provided upon the Property in accordance with this statement and with the Bulk Regulations and Data Table. All loading required by this Planned Development shall be located proximate to the building or use served. No loading areas shall be located facing Wells Street or Clark Street. The view of loading areas from other public streets shall be minimized through the use of landscaping and fencing.

(c) Curb-cuts. Private roadways, driveways, entrances to off-street parking and to loading docks, openings for vehicular drop-offs and all other facilities requiring curb cuts shall be located to minimize conflicts with on-street traffic and with pedestrian circulation. Any required street tree removed or made infeasible due to location of a curb cut for a loading dock shall be provided elsewhere upon the Property. No

curb-cut shall be located along the boundaries of the Subarea II park area or within fifty (50) feet of any other curb-cut. All curb-cuts shall be constructed in accordance with the standards of the City of Chicago. No more than three (3) curb-cuts for private roadways (not including access for vehicular drop-off areas) shall be located along Clark Street.

(d) Landscaping.

(i) Landscaping shall be installed and maintained in accordance with the Conceptual Landscape/Streetscape Plan. Additionally, detailed landscape plans in accordance with Statement Number 12 hereof are to be submitted to determine compliance with this section. Parkway trees shall be installed and maintained in the public right-of-way adjacent to any development of the Property in accordance with the parkway tree planting provisions of the Chicago Zoning Ordinance and associated regulations. Open areas of the Property not otherwise devoted to permitted buildings, parking areas or pedestrian/vehicular circulation areas shall be landscaped to enhance the appearance of the development from the public street, to screen unattractive uses from the street and to provide buffers between adjacent uses. In connection with residential uses, adequate and appropriately designed open space shall be provided in the form of gardens, landscaped areas, children's play lots, playgrounds, and above-grade open space facilities (such as roof decks). Landscaping shall consists of grass, ground cover, shrubs, trees or other living plant materials. All landscaping shall be properly maintained at all times. The Metra embankment shall be screened with landscaping and shall be fenced as and to the extent depicted on the Conceptual Streetscape Section. Street trees shall be located in continuous raised planters in accordance with the Conceptual Streetscape Section.

(ii) Prior to development in accordance with an approved Site Plan, open areas of the Property shall be maintained with grass; provided, however, that the

following areas shall not be subject to this requirement: existing parking areas, roadways and other paved areas; areas occupied by existing foundations or other impediments to the growth of grass; areas occupied by the Metra facilities; existing public rights-of-way; and areas subject to covenants, easements or other restrictions inconsistent with the maintenance of grass. The initial planting of the grass where required shall be completed no later than one (1) year following adoption of this Planned Development.

(e) Building Design and Exterior. The exterior walls of any structure, including walls and fences, facing or visible from the public way shall be designed and constructed to avoid a monotonous and blank appearance through the use of texture and detail, windows, openings, projections, recesses, offsets, variations to the parapet wall, variations in type or color of materials or other architectural devices.

The following design features are strongly encouraged wherever feasible: awnings; retail, office uses, lobby space or similar active uses at ground level; orientation and configuration of buildings located proximate to the south and east boundaries of the Subarea II park area to enhance sunlight onto the Subarea II park area; and cornice lines and other architectural devices to enhance pedestrian scale.

(f) Roosevelt Road Building Orientation and Entrances. All buildings constructed adjacent to Roosevelt Road shall rise a minimum of one (1) story above Roosevelt Road, shall include pedestrian entrance from Roosevelt Road and shall otherwise be designed to promote an active pedestrian street level. Any such building with frontage along both Roosevelt Road and Wells Street shall, in addition to the entrance from Roosevelt Road, provide an entrance at grade level from Wells Street. Vertical transition from the Roosevelt Road level to the Wells Street level shall be included within any such building.

(g) Fencing materials facing all public streets and common open spaces shall be at least seventy percent (70%) transparent and no more than five (5) feet in height.

(h) Open Space.

(i) The Building Separation Zones depicted on the Subarea Plan shall be landscaped and improved in connection with adjacent development to provide appropriate pedestrian access to adjacent streets and private drives. Such Building Separation Zones shall be open in appearance and shall include no buildings, fences or similar obstructions. Other than areas within the zones which are improved with plazas, roadways, walks, pedestrian furnishing, lighting and related items, the zones shall be landscaped with plant material and other landscaping materials.

(ii) Applicant acknowledges the shortage of public parks in the vicinity of the Property and shall comply with the applicable provisions of the City's Open Space Impact Fee Ordinance. Any open space provided upon the Property shall entitle the Applicant or its successors to a minimum credit of Three Hundred Thirteen Dollars ($313) per eighty-seven (87) square feet of open space against the impact fees due, where the open space meets the following criteria:

-- minimum contiguous area of two thousand (2,000) square feet, or such larger area as may be required by future amendment to the applicable department regulations, but in no event more than four thousand (4,000) square feet.

-- minimum dimension of twenty-five (25) feet.

-- the open space is improved with landscaping, walkways or recreational facilities.

-- one (1) tree is provided within the open space for every one thousand (1,000) square feet of open space.

-- the open space is accessible to the residents of the Property and to the public.

The two and ninety-five hundredths (2.95) acre Subarea II park area complies with the aforesaid criteria and entitles Applicant or its successors to a minimum credit of Four Hundred Sixty-two Thousand Three Hundred Twelve and no/100 Dollars ($462,312.00) against open space impact fees due for development anywhere upon the Property. If the Open Space Impact Fee Ordinance or associated regulations or instructions are or have been amended to provide for a credit which is greater than Three Hundred Thirteen and no/100 ($313.00) per eighty-seven (87) square feet (whether by increasing the dollar value or decreasing the number of square feet), then Applicant shall be entitled to the full benefit of such greater credit.

Upon submission to and review by the Department of evidence of cost, the Applicant shall be entitled to additional credit against the open space impact fee for the dollar value of the recreational facilities provided upon the property (such as facilities related to tennis courts, basketball courts and children's play lots).

(i) Particular Uses. Theaters containing more than one hundred (100) seats and freestanding telecommunications towers, because of their unique characteristics, shall be subject to additional review by the Department to establish that the impact of such uses at a particular location is not significantly adverse to public health, safety or welfare.

11. (a) Prior to occupancy of any building or use of the Property, improvements necessary to serve or accommodate said building or use shall be in place and available for use. Said improvements shall be designed, constructed and installed in accordance with applicable City standards, laws and regulations subject to the approval of the appropriate City departments and agencies, as required, as well as in conformance with applicable state and federal standards, regulations and laws. Improvements necessary to serve uses or buildings on the Property are the following: (i) the public roadway improvements depicted on the Public Right-of-Way Improvement Plan and Intersection Improvement Plan (including pavement, required turn lanes, curbs and gutters, traffic signals and sidewalks); (ii) the utilities necessary to provide potable water, sewer facilities, electric, gas, telephone and other

private utility facilities and services to the Property; (iii) the streetscape improvements (including sidewalks, streetlights and street trees) depicted on the Conceptual Landscape/Streetscape Plan; and (iv) the approximately two and ninety-five hundredths (2.95) acre Subarea II park area depicted on the Subarea Plan and the Conceptual landscape/Streetscape Plan.

(b) The following specific improvements shall be completed within the time periods described below. A "Development Parcel" means that portion of the Property located within a single subarea which is the subject of an application for Site Plan approval as described by Statement Number 12 of this Planned Development:

(i) The new construction of, or improvements to, Wells Street, Taylor Street, Financial Place and Polk Street depicted on the Public Right-of-Way Improvement Plan, the Public Intersection Improvement Plan (including associated utilities) and the Polk Street Pedestrian Improvements Plan shall be completed (including property dedication and conveyance of improvements) no later than initial occupancy of the first principal structure constructed upon any portion of Subarea I, III or IV.

(ii) The landscape and streetscape improvements depicted on the Conceptual Landscape/Streetscape Plan shall, for and to the extent such improvements are contiguous to a Development Parcel, be completed no later than six (6) months following initial occupancy of the first principal structure constructed upon said Development Parcel. Said improvements shall include both sides of any public roadway contiguous to said Development Parcel where both sides are located within the boundaries of this Planned Development.

(iii) The new east/west alley from Wells Street to the existing north/south alley east of Wells Street, depicted on the Public Right-of-Way Improvement Plan, shall be completed no later than initial occupancy of the first principal structure constructed within any Development Parcel contiguous to said east/west alley.

(iv) A temporary bus turnaround shall be provided at or near the terminus of Wells Street (extended) no later than the issuance of a building permit for the one hundred fiftieth (150th) dwelling unit on the Property so long as the Chicago Transit Authority has indicated its commitment in writing to continue to provide regular bus service in the area or extend service along Wells Street into the Property. Such temporary bus turnaround shall be located, designed and constructed in general accordance with the C.T.A. Bus Turnaround Plan (and shall include utility connections to utilities built within Wells Street right-of-way, but not including the washroom facility); provided that it shall not be located upon the Property and the Applicant shall have no liability or obligation for its maintenance, operation or security.

(v) The improvements to the two and ninety-five hundredths (2.95) acre Subarea II park area depicted on the Conceptual Landscape/Streetscape Plan shall be completed no later than six (6) months following initial occupancy of the first principal structure constructed upon any portion of Subarea I or Subarea III. These improvements, which the Applicant voluntarily makes available for public use, are as follows: one (1) baseball field, two (2) tennis courts, two (2) basketball courts, a children's play lot and landscaping, all as depicted on the Conceptual Landscape/Streetscape Plan. Said list of improvements may be revised upon Applicant's request and Department approval following comments from the Chicago Park District, which approval shall not require the procedure described in Statement Number 13 of this Planned Development. Upon completion of said improvements, the Subarea II park area shall remain open to the public during those hours that similar parks owned and operated by the Chicago Park District remain open. Until and unless the Applicant elects to dedicate title to said park area to the City or the Chicago Park District and the City or the Chicago Park District accepts such dedication of title, the Applicant shall be responsible for the maintenance of said park. Applicant may elect to voluntarily dedicate to the City, the Chicago Park District or to another qualifying entity a conservation easement over the park area.

In the event that the City or the Chicago Park District accepts dedication of title of the park area, then notwithstanding any other provision of this Planned Development, the Net Site Area

of the Property, for purposes of calculating maximum Floor Area Ratio and Minimum Lot Area Per Dwelling Unit, shall be deemed to continue to include the area of said park so dedicated.

(vi) The City believes that at such time as a sufficient population of residents exists within Subareas V and VI, it is desirable for the residents located to have convenient and proximate access to the Subarea II park area. Accordingly, upon the completion of construction of the second residential building built upon Subareas V and VI of the Property (the "Trigger Date"), if any, (including buildings with ground floor commercial uses, but not including buildings located within the Low Height Zone as depicted on the Subarea Plan), Applicant shall pay twenty-five percent (25%) of the cost, but in no event greater than One Million Seven Hundred Fifty Thousand Dollars ($1,750,000), for the design and construction of a public, pedestrian tunnel under the Metra tracks (the "Tunnel"), subject to the following conditions and requirements:

(1) The aforesaid obligation (and the Letter of Credit described in subparagraph (8) below) shall terminate and be null and void if the City fails to achieve Substantial Completion of the Tunnel with three (3) years following the Trigger Date.

(2) The Applicant shall designate the location of the Tunnel within a zone which is bounded by a line one hundred (100) feet to the north of and a line one hundred (100) feet to the south of the centerline of the existing Taylor Street right-of-way;

(3) The Applicant shall, to the extent it may have the right to do so and to the extent necessary, permit public pedestrian access across and under the portion of the Property burdened by the existing Metra railroad easement or Metra railroad facilities, and if requested by the City grant an easement, for the purpose of allowing the City to construct and the public to use the Tunnel;

(4) The Tunnel shall be constructed and owned by the City of Chicago and maintained by the City in a safe, sound and sanitary condition at all times (and if not so

maintained), the Applicant shall have the right (but not the obligation) to provide such maintenance;

(5) The City shall be responsible to obtain any and all required rights and approvals to construct, operate and maintain the Tunnel including, but not limited to, rights and approvals from Metra;

(6) The aforesaid public use and construction of the Tunnel shall not disrupt, endanger or threaten the Applicant's use and enjoyment of the Property;

(7) The Applicant shall be provided with timely opportunity to review and comment on the preliminary and final design and specification documentation for the Tunnel;

(8) No earlier than the Trigger Date, and only after written request from the City, Applicant shall provide the City with a Letter of Credit authorizing the draw down of the funds in accordance with this subsection (vi), solely as and to the extent that valid and appropriate invoices are presented for construction on the Tunnel which work has been properly completed in accordance with the construction documents;

(9) The Tunnel shall be deemed a public infrastructure improvement appropriate in connection with the development of the Property and nothing herein shall be construed to preclude the Applicant from seeking reimbursement for the aforesaid funds from the City under any applicable program or authorization.

12. Prior to issuance by the Department of a determination pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance ("Part II approval") for any development of the Property, a Site Plan for proposed development shall be submitted to the Department of Site Plan approval. Site Plan approval is intended to assure that specific development proposals conform with this Planned Development and to assist the City in monitoring ongoing development. A Site Plan may be submitted for all or any part of the Property. Such Site Plan need only include the area within the Development Parcel, and required improvements described in Statement Number 11 above, for which approval is being sought by the Applicant. No Part II approval for

development with a Development Parcel upon the Property shall be granted until an applicable Site Plan has been approved.

If a Site Plan substantially conforms with the provisions of this Planned Development, the Department shall approve said Site Plan. Following approval of a Sight Plan by the Department, the Site Plan shall be kept on permanent file with the Department and shall be deemed to be an integral part of this Planned Development.

After approval of a Site Plan by the Department, the approved Site Plan may be changed or modified pursuant to the provisions of Statement Number 13 of this Planned Development. In the event of any inconsistency between an approved Site Plan and the terms of the Planned Development in effect at the time of approval of such Site Plan or of the modifications thereto, the terms of the Planned Development shall govern.

A Site Plan shall, at a minimum, provide the following information with respect to the proposed improvements within the boundaries of a Development Parcel and including any improvements required by this Planned Development not located within the Development Parcel:

(a) building elevations;

(b) footprint of the improvements;

(c) preliminary landscaping plan;

(d) pedestrian circulation;

(e) preliminary cross-sections of the improvements; and

(f) statistical information applicable to the Development Parcel including floor area and floor area ratio, uses to be established, building heights and setbacks.

A Site Plan shall include such other information as may be necessary to illustrate conformance with the applicable provisions of the Planned Development.

13. The terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner of the Department upon the request of the Applicant and after a determination by the Commissioner of the department that such a modification is minor, appropriate and consistent with the nature of the development of the Property contemplated herein. Such modifications include, but are not limited to, those specifically authorized by the other provisions of this Planned Development. Any such modification shall be deemed a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of subclauses 4 and 5 of the Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, a reduction in periphery setbacks and an increase of the maximum percent of land covered.

Without requirement of the approval described in this Statement Number 13 above, Applicant may elect to make the following adjustments to the aforesaid exhibits:

(a) The location of the two and ninety-five hundredths (2.95) acre Subarea II park area depicted on the Subarea Plan and on the Conceptual Landscape/Streetscape Plan may be adjusted within the "Park Zone" depicted on the Subarea Plan; provided that the relocated park area shall not be less than two and ninety-five hundredths (2.95) acres in size. The boundaries of Subarea I and III, the associated parameters contained in the Bulk Regulations and Data Table, and the location of Taylor Street shall be adjusted as necessary to accommodate any such location adjustment.

(b) The location of any or all of the three (3) Building Separation Zones depicted on the Subarea Plan and the Conceptual Landscape/Streetscape Plan may be adjusted in a northerly or southerly direction; provided that (i) each such zone shall be no less than sixty-six (66) feet in width and shall extend from Clark Street to the Metra tracks and (iii) the distance between Building Separation

Zones and the distance between any Building Separation Zone and the northern and southern boundaries of the Property shall not be less than one hundred (100) feet; and (iii) the location of the centerline of the middle of the three (3) zones shall be no further

north or south of the centerline of the existing Taylor Street right-of-way than one hundred (100) feet. The boundaries of Subareas V, VI, VII and VIII and the associated parameters contained in the Bulk Regulations and Data Table shall, in connection with the applicable application for Site Plan approval, be depicted to be adjusted as necessary to accommodate any such location adjustments.

(c) The location of Financial Place as depicted on the Subarea Plan, the Landscape/Streetscape Plan and the Public Right-of-Way Improvement Plan may be adjusted to the alternate alignment depicted on said exhibits.

14. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all new buildings to be located within this Planned Development in an energy efficient manner, generally consistent with most current energy efficiency standards published by the American Society of Heating, Refrigerating and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S."). Copies of these standards may be obtained from the Department.

15. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the property. Plans for all buildings and improvements on the property shall be reviewed and approved by the Mayor's Office for People with Disabilities (M.O.P.D.) to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility. No approvals shall be granted pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance until the M.O.P.D. has approved detailed construction drawings for each building or improvement.

16. The Property is intended to be developed in phases extending over periods of time. This statement describes the schedule for commencement of development of those phases.

(a) Initial Period. Unless substantial construction has commenced upon a minimum of two hundred fifty thousand (250,000) square feet of floor area within six (6) years of the effective date of this amended Planned Development, this Planned Development shall expire upon the sixth (6th) anniversary of the effective date hereof. If this Planned Development expires pursuant to the foregoing provision, the zoning of the Property shall automatically be classified as that of the C3-4 Zoning District.

(b) Subsequent Periods. Unless substantial construction has commenced and been diligently pursued after the Initial Period on a minimum of five hundred thousand (500,000) square feet of floor area within ten (10) years of the effective date hereof, seven hundred fifty thousand (750,000) square feet of floor area within fifteen (15) years of the effective date hereof and one million (1,000,000) square feet of floor area within twenty (20) years of the effective date hereof (the "Subsequent Periods") the Department may decide to review and recommend modification of the provisions of this Planned Development in whole or in part. The Department's determination that the Planned Development ordinance must be reviewed and shall be reflected in an application filed by the City for a Planned Development amendment, with the City being deemed the applicant and providing such notice as may be required by law. Not less than thirty (30) days before filing any such application for amendment to the Planned Development, the Department shall provide the Applicant with a copy of the draft application for amendment.

17. The Applicant acknowledges that the operation of a children's day care facility may be a desirable component of a residential community. Accordingly, at a minimum, the first (1st) building to be built upon the Property, following construction of the five hundredth (500th) dwelling unit on the Property, which contains a minimum of two hundred fifty (250) dwelling units shall incorporate space suitable for day care purposes. Said space shall be located on the ground floor, shall be proximate to an area of outdoor landscaped open space and shall otherwise be suitable for the establishment and operation of a day care facility. The Applicant shall make good faith efforts to market said space for rental or sale, as the case may be, to operators of day care facilities. If, after having marketed the day care space for at least thirty-six (36) months (including marketing prior to, during and after construction of the project), the space has not been rented or sold for the purpose of operation of a day care facility, the Applicant may apply for a permanent waiver of this requirement

under the minor change provisions of Statement Number 13 hereof. Said application shall include written documentation of the aforesaid marketing efforts. If the Commissioner determines that the marketing efforts have been undertaken in good faith, the Commissioner shall grant the permanent waiver.

18. The Applicant acknowledges that the opportunity for residential units larger than one (1) bedroom units is a component of attracting families to a residential community. Accordingly, for each building containing residential units upon the Property, a minimum of twenty percent (20%) in the aggregate of all the dwelling units within all of the buildings in each phase of development, as described at the time of Site Plan approval, shall be of a sufficient size to accommodate either three (3) bedrooms or two (2) bedrooms or any combination thereof ("Large Units"). If any Large Units have not been rented or sold, as the case may be, after having marketed them in good faith for at least eighteen (18) months following completion of construction (including pre-construction marketing in the case of owner-occupied units), the Applicant may apply for a permanent waiver of this requirement under the minor change provisions of Statement Number 13 hereof. Said application shall include written documentation of the aforesaid marketing efforts. If the Commissioner determines that the marketing efforts have been undertaken in good faith, the Commissioner shall grant the permanent waiver.

*Signage Standards.*

Primary Building Identification.

Identification signs for a building name or building owner's corporate name may be placed directly above a building's entrance (see Building Signage Diagram). Such signs can be a maximum of three (3) feet high with only one sign per building facade allowed. If necessary for visibility, such signs can be placed away from a main entrance on the building base.

If illuminated, such signs must be backlit. They shall be surface mounted and integrated into the design of the building's facade. Such signs can incorporate

a building or company's identity colors, logos and typeface. Address numbers shall be included at all entrances to buildings.

Miscellaneous Tenant Identification.

All building signage other than the main and secondary building identification signs shall be restricted to a common "sign band" established around the bases of buildings. The sign band will be located directly above storefront windows at the same height from storefront to storefront (see Building Signage Diagram).

Signs placed within the sign band shall be a maximum height of two (2) feet and protrude no more than eight (8) inches from the face of the building. If illuminated, such building signs shall be backlit.

If awnings are to be constructed on the first level, signage no taller than one (1) foot can be applied on the vertical fringe of the awning. The bottom edge of awnings shall be eight (8) feet above adjacent grade level and shall align with adjacent awnings.

No temporary signs can be displayed or applied on buildings, awnings, canopies or windows.

Freestanding Ground Signs.

Freestanding ground signs are permitted at each primary entrance to the development. Such signs shall not exceed four (4) feet in width by eight (8) feet in height. If illuminated, such signs shall be backlit.

Temporary Signs.

Parcels that are unimproved or under construction may have temporary marketing, construction or other site signs provided that they are designed, constructed and maintained in accordance with the following standards:

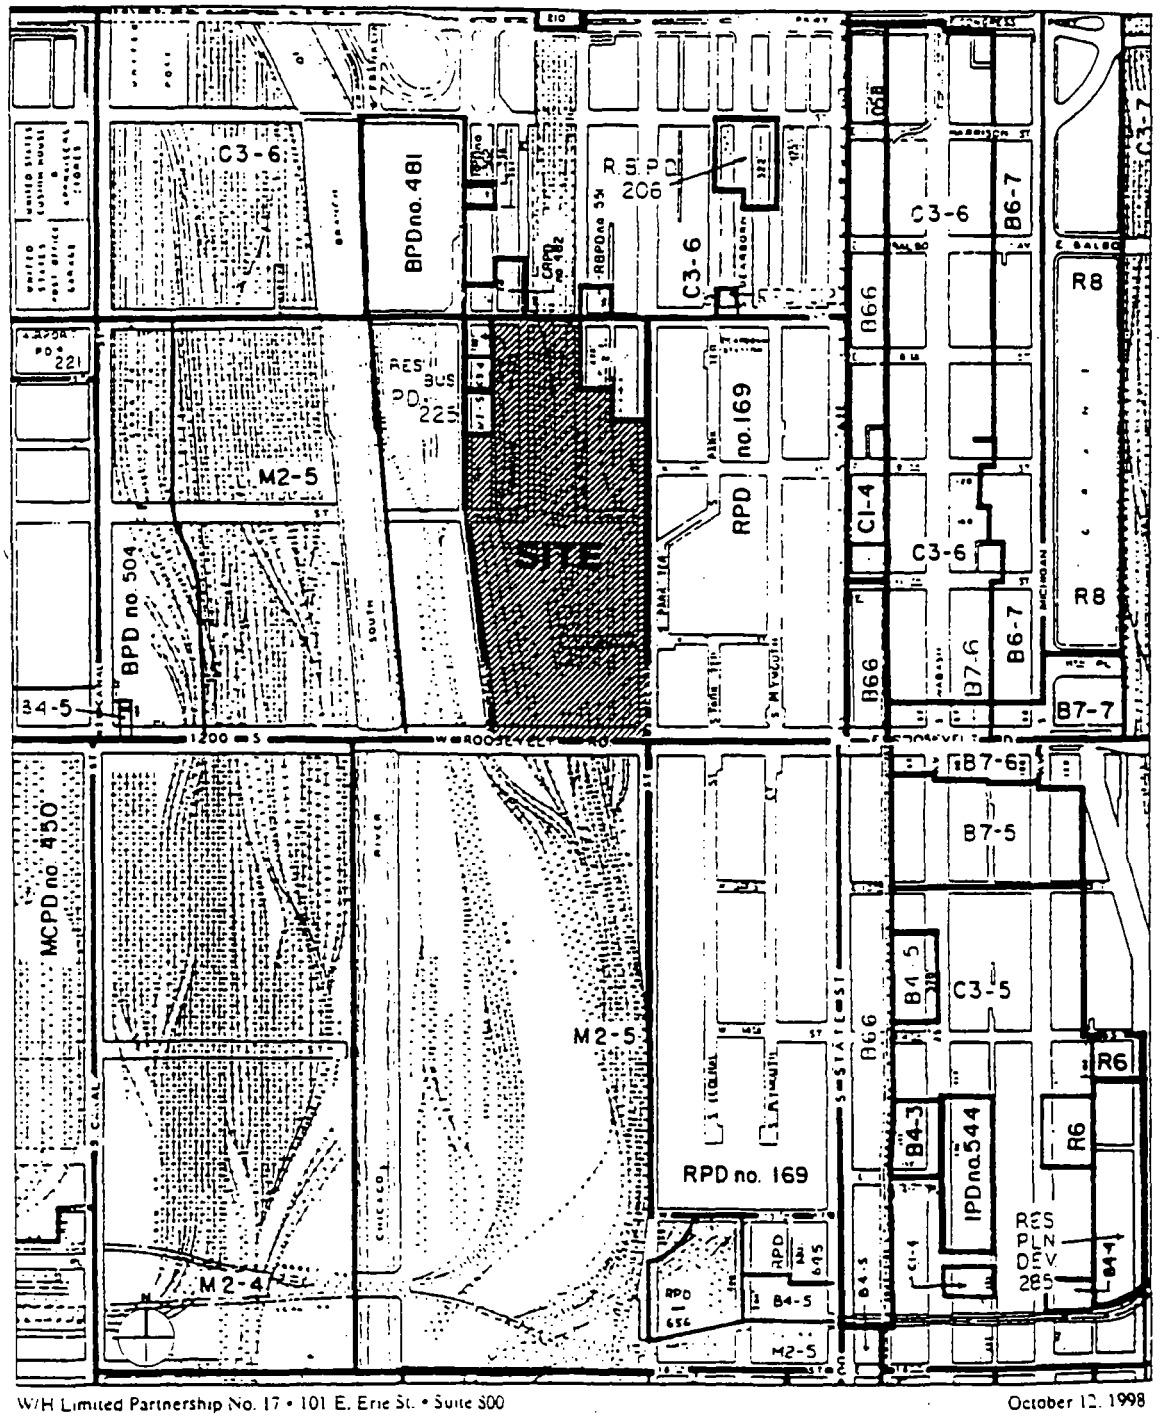

-- Sign faces shall be a maximum of twelve (12) feet in height and two hundred fifty (250) square feet in area.

-- Construction barricades may be used as signage.

-- Signs shall be maintained in good condition.

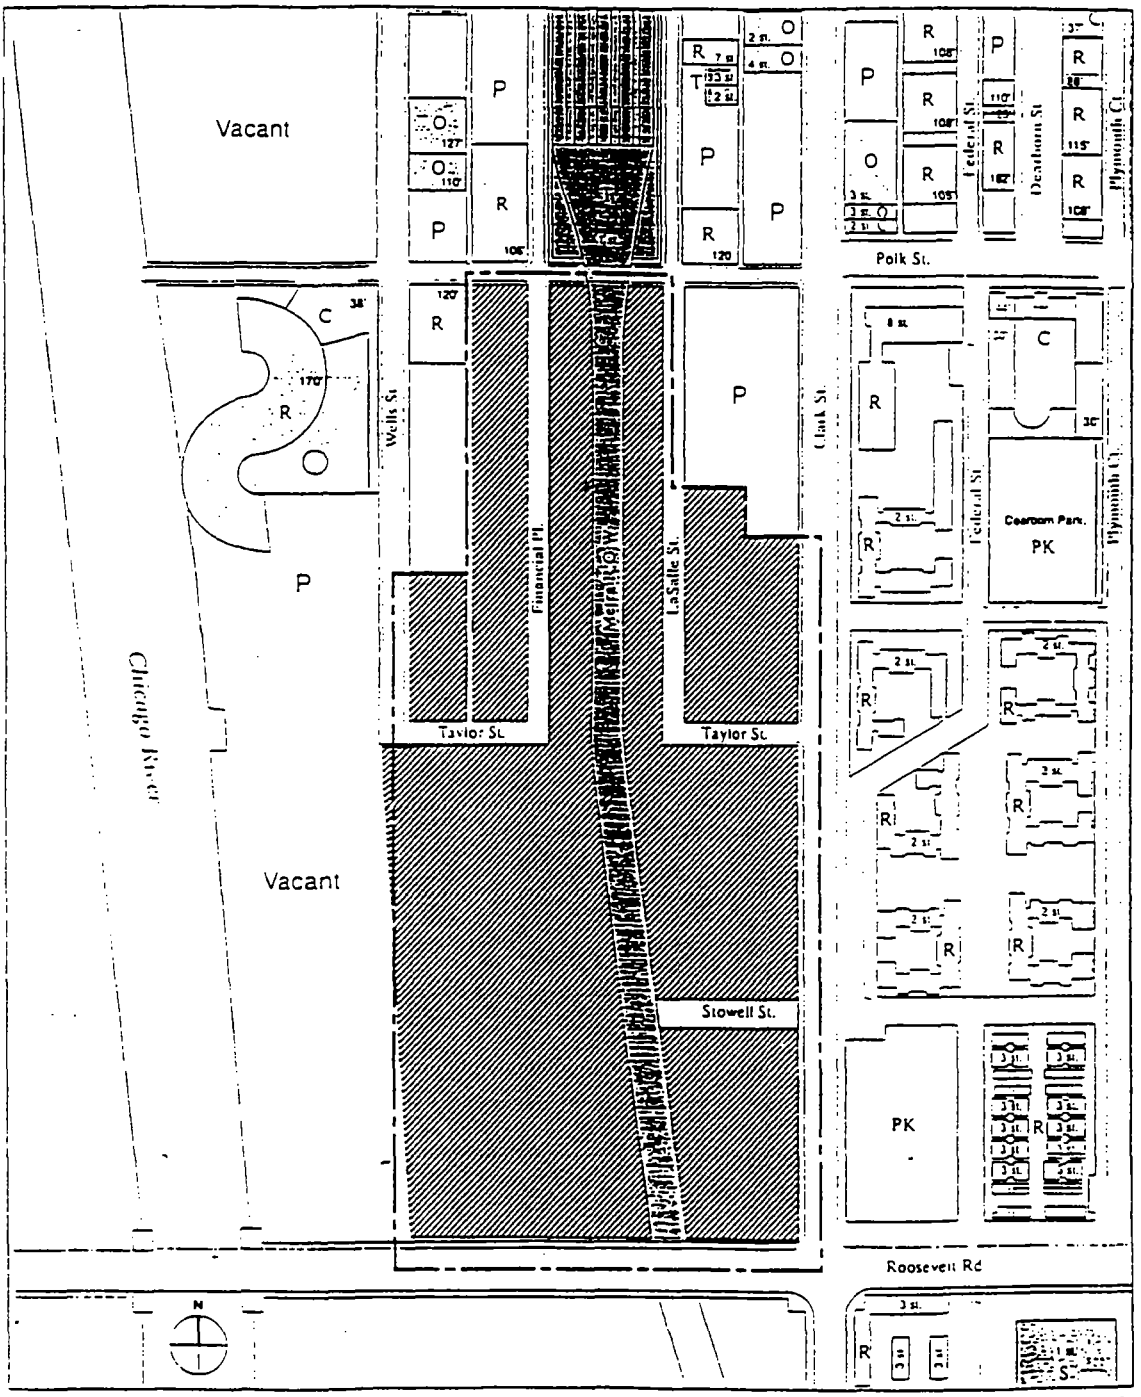

-- Sign information shall be kept current.

4. This Plan of Development consists of these fourteen (14) statements, a Bulk Regulations and Data Table; a Planned Development Property and Boundary Line Map; an Existing Zoning Map; an Existing Land-Use Map; a Site Plan, Landscape Plan and Building Elevations as prepared by Pappageorge Haymes Architects dated December 16, 1998. Full size sets of the plans are on file with the Department of Planning and Development. This Plan of Development is in conformity with the intent and purposes of the Chicago Zoning Ordinance (Title 17 of the Municipal Code in Chicago) and all requirements thereof and satisfies the established criteria for approval of a Planned Development. These and no other zoning controls shall apply to the area delineated herein.

-- Construction of a cul-de-sac at West Fry Street and North Elston Avenue to discourage truck traffic on residential streets, subject to a separate submittal to and approval by the City Council.

In addition, the Applicant shall cause the following language to be inserted in the Property-Owner's Association Declaration which will be recorded against the property:

Purchasers or their tenants acknowledge, and have actual notice of, the nature of the area generally surrounding the property. The Purchasers or their tenants further understand that noises, sounds, and vibrations emanating from the manufacturing enterprises or their trucks may be offensive due to frequency at all hours of the day, shrillness or loudness, and that odors may be strong and obnoxious. The Purchasers or their tenants hereby acknowledge that each Unit has been purchased with the Owner's full knowledge of any potential nuisance created by the manufacturing enterprises.

The City, as further notice to future purchasers and occupants, shall erect a sign on the railroad viaduct on Ogden Avenue identifying it as an entrance to the Elston Planned Manufacturing District.

12. The terms, conditions and exhibits of this planned development ordinance may be modified, administratively, by the Commissioner of the Department of Planning and Development upon the written request for such modification by the Applicant and after a determination by the Commissioner of the Department of Planning and Development, that such a modification is minor, appropriate and is consistent with the nature of the improvements contemplated in the planned development. Any such modification of the requirements of this statement by the Commissioner of the Department of Planning and Development shall be deemed to be a minor change in the planned development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of sub-clauses 4 and 5 of Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, or a reduction in periphery set backs.

13. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes, enables and maximizes universal access throughout the property. Plans for all buildings and improvements on the property shall be reviewed and approved by the Mayor's Office for People with Disabilities (M.O.P.D.) to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility. No approvals shall be granted pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance until the Director of M.O.P.D. has approved detailed construction drawings for each building or improvement.

14. Unless substantial construction of the improvements contemplated hereunder by this Planned Development has commenced within three (3) years following adoption of this Planned Development (excluding any time where construction is tolled due to litigation), and unless completion thereof is diligently sought, then this Planned Development shall expire and the zoning of the property shall automatically revert to that of the pre-existing M3-4 Heavy Manufacturing District and classification.

16. Design Guidelines. The improvements on the Property shall be designed, constructed and maintained in general conformance with the plans and exhibits set forth in these statements. In addition the development shall be subject to the following development parameters.

(a) Open Space: Open space shall be provided in the amounts specified in the attached Exhibits 1 and 7.

(i) Improvements: The public open spaces identified on Exhibit 7. (Open Space Plan) shall include the following: Internal pathways, planting beds, trees, benches, drinking fountains, bike racks and light fixtures. All private open spaces in Subarea 1 shall contain hard and softscape surfaces. In addition, all public open spaces in Subarea 5 shall include at least one (1) of the following features: Play equipment for tots and older children, spray pool, fountain or other water feature, or public art. All public open space in Subarea 5 will be inter-connected by a pathway. At least one (1) of the public open spaces shall contain play equipment. Public streets or walkways shall abut at least one (1) side of every public park or common open space.

(ii) Landscaping: All open spaces and streetscaping shall substantially comply with the Chicago Landscape Ordinance and associated guidelines and regulations. Landscaping will be seasonal, varietal and maintained through irrigation systems. Beds shall contain thirty percent (30%) evergreen materials, a variety of shrubs, flowers, vines and trees. (iv) Gateway Plaza: An urban plaza adjacent to Halsted Street shall be developed by the University at the southwest corner of Roosevelt Road. The plaza shall, in addition to representing a symbolic entryway to the development, be designed for active and passive public uses as well as for programmed activities and a place for arrival and departure. The park will have an approximate minimum dimension of one hundred ten (110) feet by one hundred fifty (150) feet. (v) Athletic Fields: The University will make available for use by residents and community organizations of nearby neighborhoods the outdoor athletic facilities located within the Planned Development Area. (b) Halsted Street:

(i) Commercial Character: Buildings fronting Halsted Street from Roosevelt Road to West Liberty Street, shall be designed to promote and maintain pedestrian-oriented neighborhood commercial uses. To retain the existing small-scale architectural character of a traditional neighborhood commercial area, new buildings should be designed with interrupted facades, fragmented roof lines and other architectural features that have the visual effect of reducing the scale of the structures. Individual building facades shall contain elements of traditional storefronts and upper-story detailing with decorative cornices. Variety in building materials, storefront patterns and detail elements shall be included. New storefronts facing Halsted Street shall be seventy percent (70%) clear glass, contain a bulkhead, storefront pier or column and display windows. The doorway should be slightly recessed from the facade. Upper story facades to be constructed of brick or stone, and will contain regularly spaced punched windows. E.I.F.S., dryvit and synthetic stucco shall be prohibited. The uppermost story shall be capped with a projecting cornice line that varies in height at a minimum of one hundred (100) lineal feet of building streetfront. Buildings should be built to the sidewalk.

The total square footage displayed on any building shall be limited to no more that two (2) times the street frontage on any given street.

(iii) Halsted/Maxwell Street Intersection: The intersection of Maxwell Street and Halsted Street should be punctuated with significant structures that help identify the importance of the intersection. These structures shall consist of existing buildings and a refurbished facade with a new [infill] building on the east side of Halsted Street and new buildings on the west that display unique elements,

like turrets not found elsewhere along the street. A commemorative plaque, special paving, public art or historic light fixtures will mark the crossroads. Setbacks shall be avoided.

(iv) Halsted Street/14th Place Intersection: This intersection should also be punctuated with significant structures such as corner elements, roof gardens and special cornice lines. End walls will contain materials and architectural elements that are consistent in character with primary building facades.

(v) Continuous Streetwall: Parking lots on Halsted Street are highly discouraged; where necessary, such lots will be screened with a low (three (3) high maximum) masonry wall or hedge that abuts the sidewalk, and landscaped. 13th Street shall be vacated and partially filled in with building extensions, trellises or decorative fencing so that the breaks between buildings does not exceed thirty-two (32) feet.

(c) Adaptive Reuse. The Applicant acknowledges that the reuse of existing buildings, coupled with a design approach for new construction that respects the traditional architectural style of the neighborhood commercial area, would help retain some of the character and history of Halsted and Maxwell Streets. Wherever feasible, existing buildings shall be adaptively reused. All retained buildings and facades will be renovated, cleaned and rehabilitated as soon as possible after acquisition. Infill construction to be done in a manner that responds to the surrounding buildings in height, width and alignment of footprints (no setbacks).

(d) Streetscape: Parkway trees and other improvements shall be designed, constructed and maintained in accordance with the attached sections, Exhibits 8a -- 8f.

(i) Streetscape-Commercial on Subarea 1 from Roosevelt Road to Liberty Street: Streetscape shall accommodate seasonal sidewalk cafes and planters except at existing structures to be saved. Glazing at window openings or decorative metal screening where glazing is not possible is required at upper floors. Ramps, car headlights and ceiling lights shall be screened from view from the public way and adjacent residential units. Curb cuts will be limited to two (2) per street, none at residential car courts, and no more than thirty-six (36) feet wide, except on South Halsted Street, where such limit shall be twenty-four (24) feet. Planters that are integrated structurally with the building and contain plant material, are highly encouraged. An irrigation system for the planters shall be provided.

*UNITED STATES CONGRESS URGED TO PRESERVE AND STRENGTHEN SOCIAL SECURITY PROGRAM.*

WHEREAS, The United States Congress created the Social Security program in the midst of the Great Depression in order to protect American workers from poverty in their retirement years; and

WHEREAS, The existence of federal budget surpluses makes it possible to address the future fiscal soundness of the Social Security program and to address the economic disparities among current seniors, without undue hardship on current workers and taxpayers; now, therefore,

*Be It Resolved*, That we, the Mayor and members of the City Council of the City of Chicago, assembled this twentieth day of January, 1999, do hereby call on the United States Congress to take steps to preserve and strengthen the Social Security system in order to protect the financial well-being of America's present and future seniors and thereby to relieve their emotional uncertainty about their elder years; and

*Be It Resolved,* That we, the Mayor and members of the City Council of the City of Chicago, do hereby express our sympathy to the family of Violet Hamock; may you always rely on Him who will heal all sorrow.

I'm Free

Don't grieve for me, for now I'm free,

I'm following the path God laid for me.

I took His hand when I heard Him call,

I turned my back and left it all.

I could not stay another day,

To laugh, to love, to work or play.

Tasks left undone must stay that way,

I found the peace at the close of the day.

If my parting has left a void,

A friendship shared, a laugh, a kiss,

Ah, yes these things I too will miss.

Be not burdened with times of sorrow,

I wish you the sunshine of tomorrow.

My life's been full, I've savored much,

Good friends, good times, a loved one's touch.

Perhaps my time seemed all to brief,

Don't lengthen it now with undue grief.

Lift up your hearts and share with me,

God wanted me now, He set me free.

*Be It Further Resolved,* That a copy of this resolution will be presented to the Rowlett family.

Poets have spoken of somber skies

And many a starry night,

Behind it all there is a God

Who ever rules aright.

When dark your day seems to be

The like of which you can't bear,

Repair to some quiet place

You'll find the Master there.

No matter what your problems are

Of them all, He is aware,

You may ever seek our Lord

You'll find Him there.

*UNITED NATIONS APPLAUDED UPON DECLARATION OF ANTI-SEMITISM AS FORM OF RACISM.*

A resolution presented by Aldermen Natarus, Stone, Lyle, Bernardini and Shiller, reading as follows:

WHEREAS, For the first time in more than half a century the United Nations General Assembly decided on December 9, 1998 to list anti-Semitism as a form of racism; and

WHEREAS, The resolution was adopted by consensus on the fiftieth anniversary of the international convention against genocide and a day before the United Nations celebrated the fiftieth anniversary of the Universal Declaration of Human Rights; and

WHEREAS, General Assembly resolutions reflect world opinion and in the past although Zionism was equated with racism after the Cold War those definitions were removed from annual General Assembly resolution on human rights; and

WHEREAS, This year the Clinton Administration lobbied hard to include a condemnation of anti-Semitism in the resolution titled "Measures to Combat Contemporary Forms of Racism, Racial Discrimination, Xenophobia and Related Intolerance"; and

WHEREAS, This resolution represents the first time that the United Nations has used the phrase "anti-Semitism" which has been fought over for years and kept out of any resolutions; and

WHEREAS, The phrase narrowly made it into the resolution in a paragraph whose language Geraldine Ferraro helped negotiate four years ago when she was the chief American representative at the United Nations Human Rights Commission; and

WHEREAS, The United Nations monitor on racism known as a special rapporteur was then asked to examine racist incidents "against blacks, Arabs and Muslims, xenophobia, negrophobia, anti-Semitism and related intolerance"; and

WHEREAS, United Nations Secretary General Kofi Annan has lent his voice to broadening definitions of intolerance, and for creating changes in the attitude of members toward Israel, which is still denied a place in any of the organizations regional groups, these groups choosing candidates for rotating Security Council seats and other positions; and

WHEREAS, In a speech in March in Jerusalem to the Israel Foreign Relations Council and the United Nations Association of Israel, Mr. Kofi Annan said it was aware that "the United Nations is regarded by many as biased against the State of Israel"; and

WHEREAS, Mr. Kofi Annan further stated that "I know that Israelis see hypocrisy and double standards in the intense scrutiny given to some of its actions, while other situations fail to elicit the world's outrage and condemnations", saying "I know that Israelis are offended when other nations' delegates leave the room as the Israelis rise to speak"; and

WHEREAS, Mr. Kofi Annan said it was time to usher in a new era of relations between Israel and the United Nations"; now, therefore,

*Be It Resolved,* That we, the Mayor and members of the City Council of the City of Chicago, assembled in meeting this twentieth day of January, nineteen hundred and ninety-nine, A.D., do hereby praise the United Nations for labelling anti-Semitism as a form of racism for the first time in its fifty year history and that of the Universal Declaration of Human Rights, that designation being long

overdue and the withholding of which signified a true racism on the parts of other countries represented in the United Nations; and

*Be It Further Resolved,* That a copy of this resolution be presented to Mr. Kofi Annan, Secretary General of the United Nations.
