Said notice shall contain the address of the subject property, a brief statement of the nature of the application, the name and address of the applicant and the statement that the applicant intends to file said application on an approximate date. Plan of Development Statements referred to in this ordinance read as follows:

*Residential-Business Planned Development
Number 489, As Amended.*

Plan Of Development Statements.

1. The area delineated herein as a Residential-Business Planned Development Number 489, as amended, consists of approximately one hundred twenty-four thousand four hundred forty-one (124,441) square feet (two and eighty-six hundredths (2.86) acres) of property and air rights (the "Property") which is depicted on the attached Planned Development Boundary and Property

Line Map and is owned or controlled by the Applicant, FJV Venture, or affiliates thereof (hereafter the "Applicant"). Said Property includes air rights over the Commonwealth Edison Substation and related property. These Plan of Development Statements, together with the exhibits hereto, may hereafter be referred to as the "Planned Development".

2. The Applicant shall obtain all applicable official reviews, approvals or permits which are necessary to implement this Planned Development. Public rights-of-way and easements shall be retained, vacated or dedicated as necessary to accommodate the development contemplated by this Planned Development. Any dedication or vacation of streets or alleys or easements or any adjustment of rights-of-way shall require a separate submittal on behalf of the Applicant or its successors, assignees or grantees and approval by the City Council. The Department of Planning and Development (the "Department") has determined and acknowledges that certain projections over the public right-of-way, as depicted on the Extensions Over Right-of-Way plan prepared by Solomon Cordwell Buenz dated January 25, 2001 and made part hereof, are necessary, integral and appropriate components of the building contemplated by this Planned Development (the "Building") and that the public interest is served by permanently allowing such projections. Accordingly, the Department recommends, subject to its jurisdiction and authority and to established procedures and applicable laws, that the City grant the Applicant title or permanent easements, requiring no compensation or payment from the Applicant, authorizing such projections to extend into and encroach upon the public ways. In the event that the Applicant is unable to obtain said easements prior to construction, the Applicant shall have the right to modify said portions of the Building design to eliminate the extensions and encroachments, provided that such modifications are approved by the Department, which approval shall be limited to assuring that the modifications would be compatible with the architectural design of the Building.
3. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant, its successors and assigns (including any condominium or homeowners' association which is formed) and, if different than the Applicant, the legal title holder(s) and any ground lessor(s). All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns (including any condominium or homeowners' association that is formed) and, if different than the Applicant, the legal title holder(s) and any ground lessor(s). Furthermore, pursuant to the requirements of Section 11.11-1 of the Chicago Zoning Ordinance, the Property, at the time applications for amendments, modifications or changes (administrative,

legislative or otherwise) to this Planned Development are made, shall be under single ownership or under single designated control. Single designated control for purposes of this Statement shall mean that any application to the City for any amendment to this Planned Development or any other modification or change thereto (administrative, legislative or otherwise) shall be made or authorized by all of the owners of the Property (or where a condominium or homeowners' association has been formed on behalf of the condominium owners or homeowners, by said association).

4. This Planned Development consists of sixteen (16) Statements; a Bulk Regulations and Data Table; an Existing Zoning Map; an Existing Land-Use Map; a Planned Development Property and Boundary Map; and the following additional exhibits prepared by Solomon Cordwell Buenz, dated January 25, 2001: (a) a Ground Floor/Site/Landscape Plan; (b) a Pedway Plan; (c) a Roof Garden Plan, an Enlarged Roof Garden Plan, North Portion and South Portion, and two (2) Sections Through Roof Garden exhibits (collectively the "Roof Garden Plan"); (d) a Schematic Building Section; (e) a North Building Elevation, a South Building Elevation, a West Building Elevation, an East Building Elevation, a North and East Base Elevation and a South and West Base Elevation (collectively the "Elevations"); (f) a Partial Signage North and East Base Elevation and a Partial Signage South and West Base Elevation (collectively referred to as the "Partial Signage Elevations"); (g) an Atrium and Balcony Details exhibit; and (h) an Extensions Over Right-of-Way plan. Full size sets are on file with the Department. These and no other zoning controls shall apply to the Property. This Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago and all requirements thereof, and satisfies the established criteria for approval as a planned development.
5. The following uses shall be permitted in this Planned Development: uses permitted in the B7-7 General Central Business zoning district including, but not limited to, retail uses, commercial uses, office uses, hotel uses, residential uses, publicly available plaza uses (including, but not limited to, outdoor activities such as entertainment, exhibits, dining, gatherings, retail sales and passive uses), publicly available pedway uses (including, but not limited to, public pedestrian travel and retail sales), accessory parking and accessory uses. Broadcast and telecommunications structures (including related equipment and parabolic transmitting and receiving antennae) and earth receiving dishes shall also be permitted; provided, however, that such structures shall be appropriately screened.

6. Signs on the Building are subject to the following:

a. Business Identification Signs.

- (1) All business identification signs shall, except as described in Section a.(2) of this Statement Number 6 below, conform with the provisions of the "State Street/Wabash Avenue Corridor" Sign Ordinance (Section 5.22 of the Chicago Zoning Ordinance, Title 17 of the Chicago Municipal Code) in the form adopted by the Chicago City Council on August 30, 2000 (the "Sign Ordinance"), and with the following "Additional Business Identification Sign Requirements":

 - (b) Business identification signs and banners which are not visible from a public street shall be permitted within the Pedway and the Entrance

Atriums (as defined in Statement Number 7 of this Planned Development) and shall not be included in any sign area calculations.

- (c) Business identification signs and banners that identify the restaurant and other business uses on the Roof Garden (as defined in Statement Number 7 of this Planned Development) shall be permitted on the Roof Garden and shall not be included in any sign area calculation; provided, however, that other than for the purposes of sponsorship communication, business identification signs for businesses not located on the Roof Garden are not permitted.
- (d) Logos, identification signs or plaques, or architectural features that identify that the Roof Garden is a publicly available area, along with related information, shall be permitted on the exterior of the Building. The area of such items shall not be included in any sign area calculation.
- (e) The allowable aggregate area of business identification signs facing or visible from State Street shall be permitted to exceed the maximum aggregate sign area permitted in the first sentence of Section (b)(1) of the Sign Ordinance by two (2) times the lineal State Street frontage; provided seventy-five percent (75%) of such excess area shall be attributable only to businesses located within the Pedway or within the Roof Garden (as those terms are defined in Statement Number 7 of this Planned Development).
- (f) Sign and banner projections shall be permitted to exceed the restrictions on projections contained in Section (b)(2) and Section (b)(5) of the Sign Ordinance as and to the extent depicted on the Extensions Over Right-of-Way Plan exhibit to this Planned Development;
- (g) The requirements of the first sentence of Section (b)(7) of the Sign Ordinance pertaining to certain sign design specifications may be modified in

connection with this Planned Development if the Department determines that such modifications would be compatible with the goals of the Sign Ordinance; and

- (h) Advertising signs, restricted by Section (b)(8) of the Sign Ordinance, shall be permitted within the interior of the Building (including, without limitation, the Pedway, the Entrance Atriums and the Roof Garden) so long as such advertising signs are located on kiosks, directory sign boxes or other similar structures; are not visible to pedestrians on the surrounding public streets; and are located and designed to be compatible with the design of the portion of the Building within which they are located. Other advertising signs are permitted in the Pedway subject to Department review and approval.

b. Directional And Informational Signs.

- (1) the Entrance Atriums shall contain directional and informational signs informing visitors that the Publicly Available Areas, as defined in Statement Number 7 of this Planned Development, are open to the public during specified hours, that the Entrance Atriums provide access to the Pedway and the Roof Garden, and describing the hours of operation of the Pedway, Entrance Atriums and the Roof Garden;
- (2) the Pedway shall contain directional and informational signs informing visitors of the location of the Dearborn and State Street C.T.A. stations; and
- (3) the directional and informational signs described in Section b.(1) and (2) of this Statement Number 6 above, shall be so located and designed as to be reasonably informative and visible to the public.

c. Temporary Signs. Temporary signs such as, but not limited to, construction, marketing and seasonal activities signs shall be permitted, provided that they are so located and designed as to be

reasonably informative and visible to the public.

d. Sign Approval.

- (1) The design, materials, size, illumination level and location of the signs described in Sections a. through c. of this Statement Number 6 above, shall be subject to approval by the Department prior to issuance of Part II Approval for said signs, which approval shall be limited to assuring compliance with the applicable standards for such signs as described in this Statement Number 6.
- (2) The Department may, without the necessity of a minor change as described by Statement Number 14 of this Planned Development, authorize signs which do not meet all of the aforesaid standards (including, without limitation, standards with regard to sign size and location) of this Statement Number 6.

- e. Pre-Approved Signs. The location, content and size of the signs depicted on the Partial Signage Elevations are hereby deemed approved by the Department; provided, however, that with respect to the two (2) "B" signs depicted on the East Base Elevation of the Partial Sign Elevations, the Applicant shall first undertake a design analysis to determine whether the business identification purposes of said two (2) signs may be incorporated in architectural features (the "Alternate Signs") in a manner satisfactory to the Department, the Applicant and the Building's anchor retailer (the "Anchor Retailer"). If the Applicant and the Anchor Retailer reach agreement on a design for the Alternate Signs, said signs shall be submitted to the Department for approval, which approval shall be limited to assuring that the Alternate Signs are compatible with the design of the building and with the State Street area. In the event of the Department's approval, the Alternate Signs shall be deemed substituted for the two (2) "B" signs depicted on the East Base Elevation of the Partial Sign Elevations. If, however, following reasonable and diligent efforts of the Applicant, working in conjunction with the Anchor Retailer, the Applicant advises the Department that the aforesaid agreement cannot be achieved or, if the Applicant and the Anchor Retailer reach agreement on the Alternate signs, but the Department fails to approve said Alternate Signs, then the Applicant shall have no further obligation under this Section E of this Statement Number 6 pertaining to the

Alternate Signs and no substitution or change to the two (2) "B" signs depicted on the East Base Elevation of the Partial Sign Elevations shall thereby be made.

7. The Building shall contain the following three (3) publicly available areas: an east/west and north/south pedestrian pedway as depicted on the Pedway Plan (the "Pedway"); a rooftop garden located on the roof of the retail base structure as depicted on the Roof Garden Plan (the "Roof Garden"); and two (2) entrance atriums, one (1) along the Randolph Street frontage and the other along the State Street frontage, to provide public access to the Pedway and the Roof Garden, as depicted on the Ground Floor/Site/Landscape Plan (the "Entrance Atriums"). The three (3) publicly available areas are collectively referred to herein as the "Publicly Available Areas". The following standards shall apply to the Publicly Available Areas:

Said Easement shall be executed and recorded prior to issuance of Part II approval for the full building permit; provided, however, that this requirement shall not prohibit the issuance of Part II approval for partial building permits such as, but not limited to, caissons-only and foundation-only permits. The Publicly Available Areas shall be open to the public, in addition to being open to the occupants of the Building, for the following purposes:

- (1) Pedway. For the publicly available pedway uses described in Statement Number 5 of this Planned Development. Public pedestrian travel underground shall be between points lying to the east, west and north of the Subject Property and for access to permitted uses which may be located in or adjacent to the Pedway. Uses permitted by this Planned Development may occupy the areas adjacent to and bordering the Pedway. Portions of the Pedway may be used for retail activities including, but not limited to, newsstands, kiosks, merchandise carts and similar venues.

- (2) Roof Garden.

- (a) For the publicly available plaza uses described in

Statement Number 5 of this Planned Development. The areas depicted on the Roof Garden Plan as "Al Fresco Dining" may be limited to outdoor dining areas associated exclusively with the use of the adjacent or proximate Roof Garden restaurants. The area depicted on the Roof Garden Plan as the "Multi-Function Space" may be used for private functions including those related to the hotel, restaurant and residences, subject to the limitations described in Section e.(1) of this Statement Number 7. Portions of the Roof Garden may be used for retail activities including, but not limited to, kiosks, merchandise carts and similar venues.

- (b) The Applicant acknowledges that it is the City's goal to create and promote public interest in, and patronage of, the Roof Garden by making available high quality, dynamic and exciting year-round events, programs and activities on the Roof Garden (the "Roof Garden Activities"). The Applicant further acknowledges that, in order to achieve said goal, a public, not-for-profit or other such entity (the "Programming Entity") which is independent of the Applicant will need to be created or designated to be responsible for the Roof Garden Activities (including, without limitation, planning, scheduling, oversight and funding). Accordingly, the Roof Garden shall be available to the Programming Entity (when established) for said purposes; provided, however, that such activities must be in accordance with the provisions of this Planned Development and must maintain levels of sound and lighting which are not disruptive to the Building. Additionally, the Applicant shall contribute the following at no cost or expense to, and for the benefit of, the Programming Entity (when established):

- (i) traditional, seasonal and holiday decorations on the Roof Garden;
- (ii) four season landscaping on the Roof Garden;

- (iii) the use of the Roof Garden physical premises and access ways pursuant to this Planned Development and the Easement (including fit-out as reasonably necessary (such as electrical outlets), an area for storage of materials (not to exceed one thousand (1,000) square feet), areas for the display of various art and sculpture, and trash receptacles);
- (iv) the use of space within the Entrance Atriums and Pedway to advertise the Roof Garden Activities; and
- (v) the following services: (a) Roof Garden maintenance including, but not limited to, cleaning, security and landscape care; (b) coordination of Roof Garden Activities with the Building through a representative from the Applicant's on-site Property Management personnel (the "Program Facilities Coordinator"), as may be designated by the Applicant from time to time. The Program Facilities Coordinator will act as the point of contact for reasonable communication and coordination with the Programming Entity with regard to Roof Garden Activities to ensure that: (1) the Roof Garden Activities do not conflict with Building activities; (2) the Programming Entity or its delegates have access to the necessary areas on the Roof Garden and the designated storage area within the Building for set-up and break-down of equipment, props, and staging materials for scheduled activities and events, and that freight elevators and loading areas, if necessary, are reasonably available; and (3) the Roof Garden Activities are otherwise reasonably coordinated with the activities and requirements of the Building. The Applicant may, from time to time, change the identity of the Program Facilities Coordinator; and (c) the Applicant

shall, in conjunction with the City, provide the following described assistance with the initial set-up and deployment of the Programming Entity; provided, however, that the Applicant's obligations in this regard will not include primary administration of the Programming Entity or legal documentation related to said set-up and deployment: initiate the initial meetings and discussions with the City, the Programming Entity, and any other necessary party relating to the creation, funding and structure of the Programming Entity; provide initial guidance and consultation in connection with the creation of the Programming Entity; and assist in the initial identification of funding sources; and, in conjunction with the City and the Programming Entity, provide guidance for the initial organization of the Roof Garden Activities (such as annual budget administrative procedures, agreements or contracts relating to initial vendors and suppliers).

- (3) Entrance Atriums. For public pedestrian access to and from the Pedway and the Roof Garden and to and from such other private uses within the Building as may be made available by the Applicant.
- b. Design. The Publicly Available Areas shall be designed and constructed in general accordance with the Ground Floor/Site/Landscape Plan; the Pedway Plan; and the Roof Garden Plan; subject to the following:
- (1) Pedway. The configuration of the Pedway as depicted on the Pedway Plan may be modified by the Applicant from time to time to accommodate the needs of Applicant's Pedway tenants without the necessity of a minor change as described by Statement Number 14, provided that such change: (a) does not shift the location of any wall along the Pedway corridor in any direction in excess of fifteen (15)

feet; (b) that in no event is the minimum Pedway width less than thirteen (13) feet, ten (10) inches; and (c) that the Pedway shall, in any event, connect to the pedway network located to the east and west of the Property and to the Randolph and State Street Entrance Atriums. Other proposed modifications to the configuration of the Pedway may be permitted, but only as a minor change as described by Statement Number 14.

- (2) Roof Garden. The Department and the Applicant acknowledge that the Roof Garden Plan is preliminary and in the process of refinement by the Applicant, in consultation with the City. The Department acknowledges that the Roof Garden Plan, as depicted and described on the (sub)exhibits hereto, is acceptable as a preliminary plan. Part II approval for the Roof Garden shall not be issued until the Department has approved the final Roof Garden Plan, provided that such approval is limited to assuring that the Plan adequately achieves the goal of promoting the public use of the Roof Garden balanced with the private operation and maintenance of an economically viable and first-class quality retail/hotel/residential mixed-use project. Once the Department has approved the final Roof Garden Plan, said Plan shall be deemed an integral part of this Planned Development, but may be amended from time to time at the request of the Applicant, subject to approval by the Department without the necessity of a "minor change" as described by Statement Number 14 of this Planned Development.
- c. Access. The Publicly Available Areas shall be handicapped accessible.
 - d. Maintenance. The Applicant shall adequately maintain the Publicly Available Areas for the purposes herein intended, including without limitation, assuring that all Publicly Available Areas and facilities are clean, litter free and in good working order and that any landscaping or plant material is in a healthy condition.
 - e. Hours.
 - (1) Roof Garden. The Roof Garden shall be open to the public

no later than 7:00 A.M. every day and shall close no earlier than the time the restaurants located adjacent to the Roof Garden close. The Applicant may, from time to time, close the Multi-Function Space in the Roof Garden, depicted on the Roof Garden Plan, for private functions including those associated with the hotel, restaurant and residences; provided, however, that (a) such closure shall not constitute more than ten percent (10%) of the total time that the Roof Garden is open for use by the public each month, unless otherwise approved and permitted by the Programming Entity; and (b) the Multi-Function Space shall be publicly available for an aggregate minimum of eight (8) hours every day.

(2) Pedway.

- (a) The hours of operation of the Pedway are divided into two (2) categories: Monday through Friday between 6:00 A.M. and 8:00 P.M. and on Saturday between 8:00 A.M. and 6:30 P.M. or such other hours as the Applicant may request and the City may approve (the "Day Time Hours") and all other hours of every day (the "Night Time/Weekend Hours"). With respect to the Night Time/Weekend Hours, the Chicago Transit Authority (C.T.A.) and the Chicago Department of Transportation (C.D.O.T.) (collectively referred to herein as the "Agencies") have requested that the Pedway also be available for public use in order to satisfy certain government requirements upon the Agencies relating to handicapped accessibility between the Red and Blue Line transit stations which are located, respectively, to the east and west of the Property. Accordingly, the Pedway shall also be open during the Night Time/Weekend Hours (which, together with the Day Time Hours, means that the Pedway would be open seven (7) days per week and twenty-four (24) hours per day), subject to the following conditions: (1) the Applicant is provided reasonable opportunity to determine that alternative methods of satisfying the aforesaid government requirements are not feasible and, if after said reasonable opportunity, the Applicant believes that an alternative method is feasible, then

the Department and the Agencies shall jointly consider such methods. If the Department and the Agencies agree to said alternative method, said method shall be implemented. (2) If no alternative method is identified or agreed upon, then the Pedway shall be open to the public during the aforesaid Night Time/Weekend Hours, provided that it shall be a continuing condition of the availability of the Pedway during the Night Time/Weekend Hours that the existing C.T.A. transfer tunnel connecting the C.T.A. Red Line station and the C.T.A. Blue Line station (the "Transfer Tunnel") be closed to public access for a minimum of eight (8) hours during the Night Time/Weekend Hours everyday, thus diverting all transfers between the two (2) C.T.A. stations during that time period to occur via the Pedway, except as otherwise required during emergencies, special events or high-demand holidays, such as July 4th and December 31st. The aforesaid minimum number of hours during which the Transfer Tunnel must be closed to public access may be adjusted from time to time by the Agencies with the written concurrence of the Applicant, if any.

If, prior to the time the Applicant seeks Part II Approval for the full building permit (which shall not include, applications for caissons-only or foundation-only permits), the Agencies advise the Applicant and the Department in writing that closing of the Transfer Tunnel, including the conditions of such closure as aforesaid, is not feasible and if no alternative method of meeting the aforesaid government requirements on the Agencies has been agreed upon, then Part II Approval for the full permit for the Building shall be withheld until the Applicant, the Agencies and the Department meet and a course of action is determined.

- (b) The aforesaid hourly restrictions shall apply solely to public passage through the Pedway and shall not impose any requirements upon the hours that retail uses in or adjacent to the Pedway may be open or closed.

- (c) The City acknowledges that the existing pedway will be closed for a portion of the period during which the Building is under construction. The Applicant shall use reasonable efforts to minimize the length of time of such closure and will open the Pedway access to publicly available use as soon as life safety and building requirements and other relevant considerations will allow.
 - (3) Entrance Atriums. The Entrance Atriums shall open at 6:00 A.M. and shall close no earlier than the time the restaurants located on the Roof Garden close.
 - f. Control. The Applicant shall retain ownership of the Publicly Available Areas. The requirements contained in this Planned Development that are applicable to the Publicly Available Areas shall not be construed to permit interference with the Applicant's reasonable private operation of the Building (including, without limitation, the Publicly Available Areas and the uses thereof) consistent with the private operation and maintenance of an economically viable and first class quality retail/hotel/residential mixed-use project. The Applicant shall retain control over all activities and shall retain the right to approve and limit all uses of the Publicly Available Areas; provided that such control, approval and limitation shall not conflict with the other provisions of this Planned Development. Access to all uses developed on the Property may be by means of the Publicly Available Areas. All requirements and conditions contained in this Planned Development with respect to the Publicly Available Areas are subject to the terms of the Easement and, in the event of a conflict between the terms of this Planned Development and the Easement, the terms of the Easement shall govern.
8. This Planned Development is subject to the following additional provisions:
- a. Decorative lighting of the Building shall be provided to accent the Building's appearance at night. The design of such lighting is subject to the approval of the Department prior to Part II Approval for said lighting, provided that such approval is limited to assuring that it is compatible with the exterior design of the Building.

- b. Residential condominium balconies shall not be used for storage areas for bikes, equipment, garbage cans or similar items. Seasonal furniture and equipment (such as barbeque grills) shall be removed in off-season. In connection with review of the construction documents relating to the residential tower for Part II Approval, the Department shall determine whether planter boxes on residential balconies are required and, if so required, such planter boxes shall be incorporated.
 - c. In connection with the construction of the Building, subject to Applicant having first-obtained the approval, if any, from the Commonwealth Edison Company ("ComEd"), the Applicant shall, in cooperation with the City, remove the 1929 decorative low relief limestone panel entitled "Spirit of Electricity" by the artist Sylvia Shaw Judson, which is located on the front (Dearborn Street) facade of the ComEd Substation on the date of adoption of this Planned Development, and shall deliver same to a location within the City of Chicago as determined by the City. In addition, the Applicant shall provide the City with a Two Thousand Dollar (\$2,000) contribution to cover the costs of reinstallation of the panel at another site, provided that thereafter the Applicant shall have no further obligation with respect to the panel.
 - d. Portions of the openings in the Dearborn and Randolph Street facades, as depicted and noted on the Elevations, incorporate architectural grills. The detailed design of these grills shall be approved by the Department prior to issuance of Part II Approval for said facades; provided that such approval is limited to assuring that, the spacing between grill elements is no more than is necessary to provide air circulation through fifty-five percent (55%) of the total area of said openings on each said facade. The Department may authorize the installation of a grill design which exceeds fifty-five percent (55%) if, in the discretion of the Department, such other grill design is consistent with the overall Building design and otherwise appropriate.
 - e. Applicant shall coordinate construction activities on the Building with the appropriate City representatives to minimize, to the extent possible, interruptions in bus transit service and traffic delays during construction.
9. Off-street parking and loading facilities shall be provided in compliance with this Planned Development subject to the review and approval of the

Department of Transportation and of the Department of Planning and Development. A minimum of two percent (2%) of all non-residential parking spaces provided pursuant to this Planned Development shall be designated and designed for parking for the handicapped.

- a. Loading. Trucks which are (1) fifty-five (55) feet in length which are utilizing any of the berths in the loading dock and (2) trucks which are thirty-five (35) feet in length or greater which are utilizing loading berth number 1 as denoted on the Ground Floor/Site/Landscape Plan, shall enter and exit the Loading Area only between the hours of 7:00 P.M. and 6:00 A.M. daily. A representative of the Applicant shall assist with the orderly operation and management of loading traffic in and out of the Loading Area so as to minimize traffic delays and obstructions of traffic along Dearborn Street resulting from the use of the Loading Area.
 - b. Parking. A representative of the Applicant shall assist with the orderly operation and management of vehicular activity at the drop-off/pick-up area adjacent to the hotel entrance so as to minimize traffic delays and traffic obstructions along Dearborn Street resulting from the use of said area. Garage doors that automatically open and close for vehicles entering and exiting the parking garage shall be provided on Washington Street. The entrance and exit driveways shall be designed in accordance with the Ground Floor/Site/Landscape Plan, the South Building Elevations, and the South Base Elevations.
10. Any service drive or other ingress or egress shall be adequately designed and paved in accordance with the regulations of the Department of Transportation in effect at the time of construction and in compliance with the Municipal Code of the City of Chicago, to provide ingress and egress for motor vehicles, including emergency vehicles. There shall be no parking within such paved areas. Ingress and egress shall be subject to the review and approval of the Department of Transportation and of the Department of Planning and Development.
11. In addition to the maximum heights of the buildings and any appurtenances attached thereto described in this Planned Development, the height of any improvements shall also be subject to height limitations as certified and approved by the Federal Aviation Administration.
12. For purposes of floor area ratio (F.A.R.) calculations, the definitions in the

Chicago Zoning Ordinance shall apply; provided, however, that floor area for these purposes shall not include floor area devoted to mechanical equipment in excess of one thousand five hundred (1,500) square feet in any single location, regardless of placement in the building.

13. The improvements on the Property, including landscaping and the landscaping along the adjacent rights-of-way and all entrances and exits to and from the parking and loading areas, shall be designed, constructed and maintained in substantial conformance with the requirements of this Planned Development. Landscaping shall be installed and maintained in accordance with the requirements of this Planned Development and with the parkway tree planting provisions of the Chicago Zoning Ordinance and corresponding regulations and guidelines.
14. The terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner of the Department upon the request of the Applicant and after a determination by the Commissioner that such a modification is minor, appropriate and consistent with the nature of the improvements contemplated by this Planned Development. Any such modification shall be deemed a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance.
15. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner that promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within the Property in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigerating and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S."). Copies of these standards may be obtained from the Department of Planning and Development.
16. Unless substantial construction of the improvements contemplated by this Planned Development has commenced within six (6) years of the effective date hereof and unless completion of those improvements is thereafter diligently pursued, then this Planned Development shall expire and the zoning of the Property shall automatically revert to the B7-7 General Central Business District classification. The six (6) year period may be extended for up to one (1) additional year if, before expiration, the Commissioner of the Department determines that good cause for an extension is shown.
