Hansen, Alderman Toni Preckwinkle, Alderman Helen Shiller, Alderman Eugene C. Schuler and Alderman Mary Ann Smith (which was referred on October 2, 2002). We have heard testimony from the public and city representatives and having had the same under advisement, beg leave to report and recommend that Your Honorable Body *Pass* the substitute ordinance to amend the Chicago Human Rights Ordinance.

This recommendation was concurred in by a viva voce vote of the Committee on Human Relations on July 31, 2002.

Respectfully submitted,

(Signed) BILLY OCASIO,
Chairman.

On motion of Alderman Ocasio, the said proposed substitute ordinance transmitted with the foregoing committee report was *Passed* by yeas and nays as follows:

Yeas -- Aldermen Granato, Preckwinkle, Hairston, Lyle, Beavers, Stroger, Pope, Balcer, Frias, Olivo, Burke, T. Thomas, Coleman, L. Thomas, Murphy, Rugai, Troutman, Munoz, Zalewski, Chandler, Solis, Ocasio, Wojcik, Matlak, Mell, Austin, Colom, Banks, Allen, Laurino, O'Connor, Natarus, Daley, Hansen, Levar, Shiller, Schulter, M. Smith, Moore, Stone -- 40.

Alderman Natarus moved to reconsider the foregoing vote. The motion was lost.

The following is said ordinance as passed:

WHEREAS, The City of Chicago seeks to protect its citizens in the enjoyment of civil rights and to promote mutual understanding and respect among all who live and work within the City; and

WHEREAS, Discrimination, prejudice, intolerance and bigotry directly and profoundly threaten the rights and freedom of Chicagoans; and

WHEREAS, The City of Chicago has passed ordinances to protect the civil rights of those who live and work within the City, including the prohibition of discrimination based on sex; and

WHEREAS, Despite these protections, there are still citizens who are denied their civil rights because their gender identity, appearance or behavior differs from that traditionally associated with their sex at birth; and

WHEREAS, Gender-based discrimination often leads to loss of employment, housing and refusal of services in public accommodations; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Chapter 2-74-080 of the Municipal Code of Chicago is hereby amended by adding the language in italics, as follows:

2-74-080 Discrimination -- Unlawful Activities.

No person shall discriminate against any employee or applicant because of race, color, sex, *gender identity*, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status or source of income, as defined in Chapter 2-160 of this code.

SECTION 2. Chapter 2-120 of the Municipal Code of Chicago is hereby amended by deleting the language in brackets and adding the language in italics, as follows:

2-120-480 Purpose And Intent.

The city council finds that prejudice and the practice of discrimination against any individual or group because of race, color, sex, *gender identity*, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status or lawful source of income menace peace and public welfare. The city council further finds that it is necessary to promote peace and good order and to eliminate such prejudice and discrimination by establishing an agency that will investigate complaints of discrimination, enforce civil rights ordinances, and promote harmony and understanding among various segments of society by gathering information on matters of human relations and providing education and counseling thereon to the various agencies of city government and to interested groups and individuals. The city council further finds that the function of such an agency can be enhanced by the creation of advisory councils on matters of special concern to groups that historically have been the subject of discrimination and bias, and provide a point of contact between such groups and the city government.

2-120-485 Definitions.

Wherever used in this Article XIV, the terms "age", "religion", "disability", "sexual orientation", "marital status", "parental status", "military discharge status", "gender identity" and "source of income" shall have the same meanings as described in Chapter 2-160 of this code.

2-120-500 Advisory Councils.

The following advisory councils of the commission on human relations are hereby established:

- (a) Advisory council on women;
- (b) Advisory council on Latino affairs;
- (c) Advisory council on Asian affairs;
- (d) Advisory council on Arab affairs;
- (e) Advisory council on African affairs;

- (f) Advisory council on [gay and] lesbian, *gay, bisexual and transgender* issues;
- (g) Advisory council on veterans' affairs; and
- (h) Advisory council on immigrant and refugee affairs.

The mayor shall appoint 21 members to each advisory council, subject to approval of the city council. Of the initial appointments to each advisory council, one-third shall be appointed for a term of one year, one-third shall be appointed for terms of two years, and one-third shall be appointed for terms of three years, subject to the following exceptions: the members, as of the effective date of this section, of the Chicago commission on women, the commission on Latino affairs, the commission on Asian-American affairs and the commission on Arab-American affairs existing under prior ordinances shall serve as the initial members of the advisory council on women, the advisory council on Latino affairs, the advisory council on Asian affairs and the advisory council on Arab affairs, respectively, for the remainder of their individual terms under prior ordinances; and members, as of the effective date of this section, of the mayor's committee on gay and lesbian issues, the mayor's advisory committee on veterans' affairs, and the mayor's advisory committee on refugee and immigrant affairs, existing under the prior commission on human relations by mayoral appointment, shall serve as the initial members of the advisory council on [gay and] lesbian, *gay, bisexual and transgender* issues, the advisory council on veterans' affairs, and the advisory council on refugee and immigrant affairs, for the remainder of their terms under such appointment. Succeeding appointments to these advisory councils shall be for terms of three years. The mayor shall designate a member of each advisory council to serve as its chairperson. The chairperson of each advisory council shall be a member ex officio of the commission on human relations. The mayor shall also appoint a director for each advisory council. Each director must be a member of the respective advisory council's affected community and shall receive such compensation as provided by the annual appropriation ordinance.

From time to time the commission may create additional advisory committee councils on matters of special concern to other racial, cultural or social groups that have been or are subjected to discrimination as a result of membership in such a group.

Each advisory council shall have the following powers and duties, relating specifically to the segment of the population of Chicago described in the council's name:

(a) to assist the commission on human relations in designing educational and enforcement programs for the implementation of the policies embodied in Chapters 2-160 and 5-8 of the Municipal Code;

(b) to act as a liaison between the city government and community organizations, in order to promote cooperation between the government and these organizations and among these organizations in order to enhance services to the population of Chicago;

(c) to cooperate, through the commission on human relations, with the other advisory councils in the identification of practices and actions having a common discriminatory impact on the advisory council's target population and other segments of society, and in the design of programs for the elimination of such practices and actions;

(d) to develop a procedure, primarily through solicitation of advice from members of the affected community, for recommending appointments of successor members to their respective advisory council to the mayor;

(e) to devise rules of procedure for its meetings, subject to the approval of the commission on human relations; and

(f) to assist the commission on human relations by recommending policies and programs, reviewing existing programs, conducting legislative research and reporting to the commission on its findings with regard to the specific needs of its community.

2-120-510 Powers And Duties.

The commission shall have the following powers and duties, in addition to those assigned by other provisions of the Municipal Code:

(a) to advise and consult with the mayor and the city council on all matters involving prejudice or discrimination based on race, color, sex, *gender identity*, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status, source of income or professional training or education from an accredited institution and recommend such legislative action as it may deem appropriate to effectuate the policy of this ordinance;

(b) to cooperate with the mayor, the city council, officials, departments and agencies of the city government in securing equality of services to all citizens, and where the need is greater, in meeting that need with additional services;

(c) to develop and implement programs to train city employees in methods of dealing with intergroup relations, in order to develop respect for equal rights and to achieve equality of treatment regardless of race, color, sex, *gender identity*, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status or source of income;

(d) to require the assistance of the various departments and agencies of the city government in identifying and eliminating discriminatory activities. The head of every city department and agency shall provide to the commission, at its request, information under control of the department or agency and relating to a pending complaint or matter under review by the commission. Upon receipt of a recommendation from the commission, the head of every department or agency shall submit to the commission a written report indicating action on and disposition of the recommendation;

(e) to initiate, receive and investigate complaints of alleged violations of Chapters 2-160 and 5-8 of the Municipal Code. A complaint must be filed no later than 180 days after the alleged violation. The person against whom a complaint is made shall be given a copy thereof within 10 days after it is filed, and shall be allowed to be present and offer a defense at any hearing thereon. Any person who files a complaint or against whom a complaint is made may be represented by counsel at any stage of conciliation, investigation or hearing on the complaint. The filing of a complaint pursuant to this section does not bar any person from seeking any other remedy that may be provided by law, except that in certain instances one or more intergovernmental agreements may specify before which governmental agency or court a person may pursue his or her complaint;

(f) to investigate complaints in order to determine whether there is substantial evidence that a violation of Chapter 2-160 or 5-8 has occurred, except where such complaints are handled by another governmental agency pursuant to an intergovernmental agreement, as authorized in subsection (g) below. The investigation shall be completed within 180 days after receipt of the complaint, unless it is impractical to do so within that time. Within 30 days after completion of the investigation, the commission shall issue a written determination whether there is substantial evidence that a violation has occurred. If the commission determines that there is not substantial evidence, it shall give written notification of the determination to the charging party and the person against whom the complaint was made. Neither the commission nor its staff shall disclose, other than at a hearing as provided in subsection (g), any information obtained in the course of investigation or conciliation, except where otherwise required by law or intergovernmental agreement;

(g) to conduct hearings on complaints under subsection (e) of this section, if the commission determines that there is substantial evidence that a violation has occurred. Hearings may be conducted by the commission, a member

thereof, or a hearing officer appointed for that purpose. A hearing must be commenced within 90 days after the determination of substantial evidence that a violation has occurred. All testimony shall be under oath, and shall be either recorded or transcribed;

(h) to appoint one or more hearing officers to conduct hearings authorized by subsection (g) of this section;

(i) to expedite proceedings under this section under the following circumstances. The commission at the request of the complainant may at any time consider a request for expedited proceedings. If the commission determines that the complainant is likely to die before the termination of the proceedings established in this section, it may order the proceedings expedited. When an order for expedited proceedings is issued, the processing of the complainant's charge by the commission shall take precedence over all matters except other matters of the same expedite character. Where such order is issued, the commission, or any hearing officer shall be authorized to shorten any time period, other than the 180 day charge filing period set by this act or by rule;

(j) to attempt to settle or adjust any complaint by conciliation at any time that the complaint is pending;

(k) to issue subpoena for the appearance of witnesses, the production of evidence, or both, in the course of investigations and hearings authorized under this section, if there is reason to believe that a violation has occurred and the testimony of the witness or the documents or items sought by the subpoena are relevant to the investigation. A subpoena shall be served in the same manner as subpoenas issued under the Rules of the Illinois Supreme Court to compel appearance of a deponent, and subject to the same witness and mileage fees fixed by law for such subpoenas. A subpoena issued under this section shall identify the person to whom it is directed and the documents or other items sought thereby, if any, and the date, time and place for the appearance of the witness and production of the documents or other items described in the subpoena. In no event shall the date for examination or production be less than seven days after service of the subpoena. No later than the time for appearance or production required by the subpoena, the person to whom the subpoena is directed may object to the subpoena, in whole or in part. The objection shall be in writing, delivered to the commission, and shall specify the grounds for the objection. For seven days after receipt of a timely objection to a subpoena, the commission shall take no action to enforce the subpoena or to initiate prosecution of the person to whom the subpoena is directed. During this seven-day period the commission, or the member or hearing officer conducting the hearing or investigation, shall consider the grounds for the objection and may attempt to resolve the objection through negotiation with the person to whom the subpoena is directed. The seven-day period may be extended by the commission, the member or hearing officer conducting the hearing or

investigation, in order to allow completion of any negotiations. The extension shall be in writing addressed to the person to whom the subpoena is directed, and shall specify the date on which the negotiation period will end. Negotiations may include such matters as the scope of the subpoena and the time, place and manner of response thereto. The filing of an objection to a subpoena, and negotiations pursuant to an objection, shall not constitute refusal to comply with the subpoena, or interference with or obstruction of an investigation. Notwithstanding anything to the contrary contained herein, the commission on human relations shall have no power or authority over any member of the city council, any employee or staff person of any member of the city council or any employee or staff person of any city council committee, including, but not limited to the power of subpoena;

(l) to render a decision upon the conclusion of a hearing, or upon receipt of a hearing officer's recommendation at the conclusion of a hearing, including findings of fact relating to the complaint, and to order such relief as may be appropriate under the circumstances determined in the hearing. Relief may include but is not limited to an order: to cease the illegal conduct complained of; to pay actual damages, as reasonably determined by the Commission, for injury or loss suffered by the complainant; to hire, reinstate or upgrade the complainant with or without back pay or provide such fringe benefits as the complainant may have been denied; to admit the complainant to a public accommodation; to extend to the complainant the full and equal enjoyment of the goods, services, facilities, privileges, advantages or accommodations of the respondent; to pay to the complainant all or a portion of the costs, including reasonable attorney fees, expert witness fees, witness fees and duplicating costs, incurred in pursuing the complaint before the commission or at any stage of judicial review; to take such action as may be necessary to make the individual complainant whole, including, but not limited to, awards of interest on the complainant's actual damages and backpay from the date of the civil rights violation. These remedies shall be cumulative, and in addition to any fines imposed for violation of provisions of Chapters 2-160 and 5-8. If the hearing was conducted by a member of the commission or by a hearing officer, the member or hearing officer shall submit written recommendations to the commission, including recommended findings of fact and recommended relief. The commission may adopt, reject or modify the recommendations, in whole or in part, or may remand for additional hearing on some or all of the issues presented. The commission shall adopt the findings of fact recommended by a hearing officer or commission member if the recommended findings are not contrary to the evidence presented at the hearing. Decisions of the commission shall be in writing, and must be approved by a majority of the quorum of the commission. Decisions of the commission shall be subject to review in accordance with applicable law;

(m) to seek judicial enforcement of its subpoenas, orders and decisions;

(n) to render an annual report of the activities of the commission and its advisory councils and make recommendations to the mayor and city council. The report shall be published;

(o) to assist and advise the advisory councils in preparation of their respective rules of procedure for their meetings. Such procedural rules of the advisory councils shall be uniform to the extent practicable;

(p) to issue such other rules and regulations as may be necessary to implement its powers, including rules for briefing and oral argument in conjunction with hearings, defaulting of parties and dismissal of complaints for failure of a party to cooperate with the commission;

(q) to enter into intergovernmental agreements with any or all of the Cook County, State of Illinois and United States governmental entities which administer and enforce laws similar to the Chicago Human Rights Ordinance and the Chicago Fair Housing Ordinance, for the purpose of more efficiently and effectively carrying out the goals of those ordinances. Such agreements may allow the commission to transfer or coordinate the investigation of complaints filed with the commission, and/or to decline jurisdiction, to defer the exercise of jurisdiction, or to dismiss a case which is proceeding in an alternate forum. The rights of persons to proceed under the Chicago Human Rights Ordinance and the Chicago Fair Housing Ordinance shall be governed by any such intergovernmental agreements, but in no event may the commission refuse to exercise jurisdiction where the complaint cannot be redressed in an alternate forum.

2-120-515 Investigations, Research And Publications.

The commission may also conduct research, public forums and educational programs on tensions between various groups within society, practices of discrimination based on race, color, sex, *gender identity*, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status or lawful source of income; conduct public hearings to ascertain the status and treatment of various racial, ethnic, religious, cultural and social groups within society; means of alleviation discrimination and bias, and of improving human relations within the city; and issue such publications as may assist in the performance of its function.

1.2. The plans and specifications for the Project (the "Plans and Specifications") shall at a minimum meet the general requirements set forth in Exhibit C hereof and shall be provided to the City by the Park District prior to the disbursement of the TIF Assistance. No material deviation from the Plans and Specifications may be made without the prior written approval of the City. The Park District shall comply with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, all as may be in effect from time to time, pertaining to or affecting the Project or the Park District as related thereto.

1.3. At such time as the Park District lets a contract or contracts for the Project, the Park District shall also provide the City with copies of all governmental licenses and permits required to construct the Project and to use, occupy and operate the Park as a public park from all appropriate governmental authorities, including evidence that the Park is appropriately zoned to be used, occupied and operated as a public park.

1.4. The Park District shall include a certification of compliance with the requirements of Sections 1.1, 1.2, and 1.3 hereof with each request for the TIF Assistance hereunder and at the time the Project is completed. The City shall be entitled to rely on this certification without further inquiry. Upon the City's request, the Park District shall provide evidence satisfactory to the City of such compliance.

SECTION 2. FUNDING

2.1. The City shall, subject to the Park District's satisfaction of the conditions precedent for disbursement described in this Section 2 and such other conditions contained in this Agreement, disburse the TIF Assistance to the Park District. The Park District shall keep the TIF Assistance in a segregated account to be used only for the Project.

2.2. Within ___ days after the Closing Date or such longer period of time as may be agreed to by the Commissioner, but in no event later than ___ days after the execution of this Agreement (the "Satisfaction Period"), the Park District must satisfy to the reasonable satisfaction of the Commissioner, the following conditions precedent for the City's disbursement of the TIF Assistance to the Park District:

2.2.1. the Park District has provided the City with:

- (a) copies of all easements and encumbrances of record (other than those arising from the Purchase);
- (b) two copies of a Class A plat survey in the most recently revised form of ALTA/ACSM land title survey, acceptable in form and content to the City prepared by a surveyor registered in the State of Illinois, certified to the Park District, and certifying as to whether the Park is in an area identified by the Federal Emergency Management Agency as having special flood hazards;
- (c) evidence of searches of current financing statement, judgments, pending litigation, bankruptcy proceedings and federal and state tax liens showing no security interests, judgments, pending litigation, bankruptcy proceedings or federal or state tax liens on the Park;
- (d) copies of a phase I environmental audit completed with respect to the Park. Based on the City's review thereof, the City may, in its sole discretion, require the completion of a phase II environmental audit with respect to the Park prior to the Closing Date. The City reserves the right to terminate this Agreement if, in the City's view, such audits reveal the existence of material environmental problems. Prior to the Closing Date, the Park District shall provide a letter from the environmental engineer(s) who completed such audit(s), authorizing the City to rely on such audits.

2.2.2. If the Park District is unable to satisfy the conditions stated in this Section 2.2 within the Satisfaction Period, either Party may terminate this Agreement by providing written notice to the other Party.

2.3. The Park District may request that a certificate(s) of expenditure in the form of Exhibit E hereto ("Certificates of Expenditure") be processed and executed quarterly. The City shall not execute Certificates of Expenditure in the aggregate in excess of the actual costs of the Project that are TIF-Funded Improvements. Prior to each execution of a Certificate of Expenditure by the City, the Park District shall submit documentation regarding the applicable expenditures to DPD. Delivery by the Park District to DPD of any request for execution by the City of a Certificate of Expenditure hereunder shall, in addition to the items therein expressly set forth, constitute a certification to the City, as of the date of such request for execution of a Certificate of Expenditure, that:

2.3.1. the total amount of the request for the Certificate of Expenditure represents the actual amount payable to (or paid to) the general contractor, subcontractors, and other parties who have performed work on or otherwise provided goods or services in connection with the Project, and/or their payees;

2.3.2. all amounts shown as previous payments on the current request for a Certificate of Expenditure have been paid to the parties entitled to such payment;

2.4. The City shall have the right, in its discretion, to require the Park District to submit further documentation as the City may require in order to verify that the matters certified to in Section 2.3 are true and correct, and any execution of a Certificate of Expenditure by the City shall be subject to the City's review and approval of such documentation and its satisfaction that such certifications are true and correct; provided, however, that nothing in this sentence shall be deemed to prevent the City from relying on such certifications by the Park District.

2.5. The current estimate of the cost of the Project is \$ _____. The Park District has delivered to the Commissioner a project budget for the Project attached as Exhibit D. The Park District certifies that it has identified sources of funds (including the TIF Assistance) sufficient to complete the Project. The Park District agrees that the City will only contribute the TIF Assistance to the Project and that all costs of completing the Project over the TIF Assistance shall be the sole responsibility of the Park District. If the Park District at any point does not have sufficient funds to complete the Project, the Park District shall so notify the City in writing, and the Park District may narrow the scope of the Project (the "Revised Project") as agreed with the City in order to complete the Revised Project with the available funds.

2.6. Exhibit D contains a preliminary list of capital improvements, land assembly costs, relocation costs, financing costs, and other costs, if any, recognized by the City as being eligible redevelopment project costs under the Act with respect to the Project, to be paid for out of the TIF Assistance. To the extent the TIF-Funded Improvements are included as taxing district capital costs under the Act, the Park District acknowledges that the TIF-Funded Improvements are costs for capital improvements and the City acknowledges it has determined that these TIF-Funded Improvements are necessary and directly result from the Plan. Prior to the expenditure of TIF Assistance funds on the Project, the Commissioner, based upon the project budget, may make such modifications to Exhibit D as he or she wishes in his or her discretion to account for all of the TIF Assistance funds to be expended under this Agreement; provided, however, that all TIF-Funded Improvements shall (i) qualify as redevelopment project costs under the Act, (ii) qualify as eligible costs under the Plan; and (iii) be improvements that the Commissioner has agreed to pay for out of TIF Assistance funds, subject to the terms of this Agreement.

2.7. The Park District hereby acknowledges and agrees that the City's obligations

hereunder with respect to the TIF Assistance are subject on every respect to the availability of funds as described in and limited by this Section 2.7. If no funds or insufficient funds are appropriated and budgeted in any fiscal period of the City for disbursements of the TIF Assistance, then the City will notify the Park District in writing of that occurrence, and the City may terminate this Agreement on the earlier of the last day of the fiscal period for which sufficient appropriation was made or whenever the funds appropriated for disbursement under this Agreement are exhausted.

2.8. If the aggregate cost of the Project is less than the amount of the TIF Assistance contemplated by this Agreement, the Park District shall have no claim to the difference between the amount of the TIF Assistance contemplated by this Agreement and the amount of the TIF Assistance actually paid by the City to the Park District and expended by the Park District on the Project.

SECTION 3. TERM.

The term of this Agreement shall commence on the Closing Date and shall expire on the date on which the Portage Park Redevelopment Area is no longer in effect, or on the date of termination of this Agreement according to its terms, whichever occurs first.

SECTION 4. ENVIRONMENTAL MATTERS.

4.1. It shall be the responsibility of the Park District, at its sole cost and expense, to investigate and determine the soil and environmental condition of the Park, including obtaining phase I and, if applicable, phase II environmental audits for the Park. The City makes no covenant, representation or warranty as to the environmental condition of the Park or the suitability of the Park as a park or for any use whatsoever.

4.2. The Park District agrees to carefully inspect the Park prior to commencement of any activity related to the Project to ensure that such activity shall not damage surrounding property, structures, utility lines or any subsurface lines or cables. The Park District shall be solely responsible for the safety and protection of the public. The City reserves the right to inspect the work being done on the Park. The Park District agrees to keep the Park free from all liens and encumbrances arising out of any work performed, materials supplied or obligations incurred by or for the Park District.

SECTION 5. INSURANCE.

5.1. The Park District shall provide and maintain at the Park District's own expense, or cause to be provided during the term of this Agreement, the insurance coverages and requirements specified below, insuring all operations related to this Agreement.

5.1.1. Workers Compensation and Employers Liability. Workers Compensation as prescribed by applicable law covering all employees who are to provide a service under this Agreement and Employers Liability coverage with limits of not less than \$100,000 each accident or illness.

5.1.2. Commercial General Liability (Primary and Umbrella). Commercial General Liability Insurance or equivalent with limits of not less than \$1,000,000 per occurrence for bodily injury, personal injury, and property damage liability. Coverages shall include the following: All premises and operations, products/completed operations, explosion, collapse, underground, separation of insureds, defense, and contractual liability (with no limitation endorsement). The City of Chicago is to be named as an additional insured on a primary, non-contributory basis for any liability arising directly or indirectly from the work.

5.1.3. Automobile Liability (Primary and Umbrella). When any motor vehicles (owned, non-owned and hired) are used in connection with work to be performed, the Park District shall provide or cause to be provided, Automobile Liability Insurance with limits of not less than \$1,000,000 per occurrence for bodily injury and property damage.

5.1.4. Professional Liability. When any architects, engineers or professional consultants perform work in connection with this Agreement, the Park District shall cause to be provided, Professional Liability Insurance covering acts, errors, or omissions shall be maintained with limits of not less than \$1,000,000.

5.2. The Park District will furnish the City at the address stated in Section 8.13, original Certificates of Insurance evidencing the required coverage to be in force on the Closing Date, and Renewal Certificates of Insurance, or such similar evidence, if the coverages have an expiration or renewal date occurring during the term of this Agreement. The Park District shall submit evidence of insurance on the City's Insurance Certificate Form or equivalent prior to the Closing Date. The receipt of any certificate does not constitute agreement by the City that the insurance requirements in this Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all Agreement requirements. The failure of the City to obtain certificates or other insurance evidence shall not be deemed to be a waiver by the City.

5.3. The Park District shall advise all insurers of the provisions of this Agreement regarding insurance. Non-conforming insurance shall not relieve the Park District of the obligation to provide insurance as specified herein. Nonfulfillment of the insurance conditions may constitute a violation of this Agreement, and the City retains the right to stop work until proper evidence of insurance is provided, or this Agreement may be terminated.

WHEREAS, Throughout recorded history a multitude of theories have evolved regarding the civilization of mankind yet few have survived the test of time; and

WHEREAS, Confucius' philosophy is often quoted and prefaced by the phrase "Confucius Say" yet his disciples numbered in the thousands and theirs in the thousands, therefore we are given benefit of his wisdom as well as of those he mentored; and

WHEREAS, Confucius is a paragon of all teachers and the embodiment of tolerance, charity, humbleness and generosity believing that all should be educated without discrimination and according to one's abilities; and

WHEREAS, Confucius believed that education was a continuing self-improvement process and that public service was a natural outcome of such a journey and he sought to revitalize Chinese social institutions including the nuclear family, school, community, state and kingdom. And although the structure in today's world has changed, the basic principles still apply: teach your children before trying to teach others, be modest in speech yet aggressive in action, be virtuous in your life and take matters seriously, be generous of your heart, sincere in your dealings with others, do your best even if you fail and above all, be kind; and

WHEREAS, As we dedicate this street let us remember what "Confucius say", "enjoy what you do and you will never work another day in your life". Following his tenets, you will contribute to the good of all mankind and leave the world, as he did, better than when you arrived; now, therefore,

Be It Resolved, That we, the officials and guests attending this solemn occasion hereby honor Confucius for his invaluable contributions to society and offer our promise to live his teachings in making our world a better place for our children and for all the future generations depending on us.

Any changes to ingress and egress shall be subject to the review and approval of the Department of Transportation and the Department of Planning and Development.
8. The maximum height of improvements on the Property shall be as designated on the Elevations and in the Bulk Regulations and Data Table attached hereto. In addition to the maximum height of the buildings and any appurtenances attached thereto prescribed in this planned development, the height of any improvements also shall be subject, if applicable, to height limitations as approved by the Federal Aviation Administration.
9. For purposes of floor area ratio ("F.A.R.") calculations, the definitions in the Chicago Zoning Ordinance in effect as of the date hereof shall apply; provided that, in addition to the other exclusions from floor area permitted for purposes of determining F.A.R. under the Chicago Zoning Ordinance,
 - (a) floor area devoted to mechanical equipment which exceeds five thousand (5,000) square feet in any single location within the building and all rooftop mechanical equipment shall be excluded, and
 - (b) all

parking provided anywhere on the Property (including all portions whatsoever of the Existing Parking Garage as designated on the Site Plan) shall be deemed accessory parking and shall not be counted in the calculation of floor area.

10. The improvements on the Property shall be designed, constructed and maintained in substantial conformance with the Site Plan, the Landscape Plan, the Elevations, the Detail Exhibits and the Roof Plan, all as described in Statement Number 4 above, in accordance with the parkway tree and parking lot landscaping provisions of the Chicago Zoning Ordinance and corresponding regulations and guidelines and in accordance with the following:
 - (a) All new parking facilities (i.e., other than those contained in the Existing Parking Garage as designated on the Site Plan) shall be constructed below grade.
 - (b) The north and east facades of the Existing Parking Garage as designated on the Site Plan shall be reclad as shown on the Elevations.
 - (c) The Existing Chapel and the Chapel Garden as designated on the Site Plan shall be retained.
 - (d) The improvements to be constructed on the Property will include maisonettes with private street entries along the Lakeview Avenue frontage as depicted on the Site Plan and Elevations.
 - (e) The condominium association or other similar type association(s) of the owners of the dwelling units to be located on the Property shall be responsible for the ongoing maintenance, care and replacement of landscaping to be installed pursuant to the Landscape Plan.
 - (f) Each dwelling unit shall include at least one (1) designated deeded parking space.
 - (g) Rooftop mechanical equipment in the condominium towers shall be situated as designated on the Roof Plan. In addition, mechanical equipment located on the roof of the north tower and the south tower will be limited to elevator mechanical equipment, exhaust and air supply equipment and similar "light" mechanical equipment (i.e., no "heavy" mechanical equipment shall be permitted on the roofs of the north tower and the south tower such as chillers and cooling towers). All such mechanical equipment will be enclosed within walls and roof elements in a manner which

is consistent with the architectural details of the condominium towers. All rooftop mechanical equipment shall be screened.

- (h) The applicant shall have the right to make any parking spaces in excess of the minimum number required under this planned development available for sale or lease to residents in the vicinity of the Property, and any such sold or leased parking space shall continued to be deemed accessory parking for all purposes hereunder.
- (i)
 - (A) As shown on the Site Plan, the western depth of the south tower of the condominium building shall not under any circumstances extend west along West St. James Place further than the lesser of (1) eighty-six and five-tenths (86.5) feet from the intersection of the westerly right-of-way line of North Lakeview Avenue and the northerly right-of-way line of West St. James Place and (2) a line starting from the eastern edge of the center window well on the northern face of the building located at 2500 North Lakeview Avenue and extending in a northwesterly direction perpendicular to the 2500 North Lakeview Avenue building at the point of said eastern edge so that the western edge of the proposed south tower does not impinge upon the light corridor provided by the center window on the northern face of the building located at 2500 North Lakeview Avenue.
 - (B) As shown on the Roof Plan, the distance between the building located at 2500 North Lakeview Avenue and the proposed development shall not under any circumstances be less than sixty nine (69) feet face of building to face of building for the first (1st) two hundred ten (210) feet of height of the proposed development; no less than seventy-seven (77) feet face of building to face of building between the height of two hundred ten (210) feet and two hundred thirty-five (235) feet of the proposed development; and no less than one hundred (100) feet face of building to face of building with respect to the housing for mechanicals on the rooftop of the proposed building which housing shall extend no greater than two hundred fifty (250) feet in height.
 - (C) As shown on the Roof Plan, the distance between the face of the building proposed at 2520 North Lakeview Avenue and the southern right-of-way line of West Deming Place shall not under any circumstances be less than nine and one-half (9½) feet for the first (1st) three hundred thirty-seven (337) feet of height of the proposed building, and not less than thirty-three (33) feet from the southern right-of-way line of West Deming Place with respect to the housing for mechanicals on the rooftop of the proposed

building, which mechanical housing shall extend no greater than three hundred fifty-five (355) feet. The foregoing thirty-three (33) foot setback shall not apply to the architectural corner expression, but such corner expression shall not exceed a height of three hundred fifty-five (355) feet.

11. At such time as the Department of Planning and Development issues its determination pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance for the development of the Property pursuant hereto (so called "Part II Approval"), the applicant will make a contribution in the amount of Fifty Thousand Dollars (\$50,000) for one (1) or more specific traffic congestion mitigation improvements in the area in which the Property is located or for a study undertaken to help determine appropriate traffic congestion mitigation improvements in that area, as designated by the Department of Planning and Development and the Department of Transportation.
12. The terms, conditions and exhibits of this planned development may be modified, administratively, by the Commissioner of the Department of Planning and Development upon the application for such a modification by the owner or ground lessor of the Property and a determination by the Commissioner of the Department of Planning and Development that such modification is minor, appropriate and consistent with the nature of the improvements contemplated by this planned development and the purposes underlying the provisions hereof. Any such modification of the requirements of the planned development by the Commissioner of the Department of Planning and Development shall be deemed to be a minor change in the planned development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, a reduction in periphery setbacks and an increase in the maximum percent of land covered.
13. The applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The applicant shall use its best and reasonable efforts to design, construct and maintain all buildings located within this planned development in an energy-efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigeration and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S").
14. The applicant acknowledges that it is in the public interest to design,

construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all new buildings and improvements on the property shall be reviewed and approved by the Mayor's Office for People with Disabilities ("M.O.P.D.") to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility. No approvals shall be granted pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance until the Director of M.O.P.D. has approved detailed construction drawings for each building or improvement.

15. Unless substantial construction of the improvements contemplated by this planned development has commenced within six (6) years following adoption of this planned development, and unless completion thereof is diligently pursued, then this planned development shall expire and the zoning of the Property shall automatically revert to the R6 General Residence District. Said six (6) year period may be extended for up to one (1) additional year if, before expiration, the Commissioner of the Department of Planning and Development determines that good cause for such an extension is shown.

9-4-020 Violation -- Penalty.

Every person convicted of a violation of any provision of Chapters 9-4 through 9-100 for which no penalty is specifically provided shall be punished by a fine of not less than [\$50.00] *\$100.00* nor more than [\$200.00] *\$500.00* for each offense.

SECTION 2. Section 9-8-010 of the Municipal Code of the City of Chicago is hereby amended by deleting the language in brackets and inserting the language in italics, as follows:

9-8-010 Authorized -- Compliance Required.

(a) The commissioner of transportation is hereby authorized to cause the placement, erection and maintenance of traffic-control devices as provided in the traffic code, as required to make effective the traffic ordinance of the city, and as necessary to guide and warn traffic. The commissioner is also authorized to place and maintain temporary traffic-control devices as needed in connection with construction or special events or experimental devices for the purposes of an engineering study; provided, however, such devices shall not be maintained for longer than 180 days without city council approval. Upon the authorization of the commissioner of transportation, the actual erection, placement and maintenance of any traffic-control device shall be performed by the appropriate city department or bureau. All traffic-control devices placed and maintained pursuant to the traffic code shall conform to the manual and specifications approved by the State of Illinois Department of Transportation and shall so far as practicable be uniform as to type and location throughout the city. All traffic-control devices so erected and not inconsistent with the provisions of state law or this Code shall be official traffic-control devices.

(b) The driver of any vehicle shall obey the instructions of any applicable traffic-control device placed in accordance with the provisions of the traffic code, unless otherwise directed by a police officer or traffic control aide.

(c) No operator of a vehicle shall attempt to avoid obedience to any traffic-control device by driving upon or through any private property, alley or traffic island.

(d) No provision of any traffic ordinance for which traffic-control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinary observant person. Whenever a particular section does not state that signs or other devices are required, such section shall be effective even though no signs or other devices are erected or in place.

Any person violating subsections (b) or (c) of this section shall be fined no less than \$150.00 and no more than \$300.00 and may be required to perform reasonable public service.

SECTION 3. Section 9-12-070 of the Municipal Code of the City of Chicago is hereby amended by deleting the language in brackets and inserting the language in italics, as follows:

(a) The provisions of Section 11-601 of the Illinois Vehicle Code shall be applicable on all streets within and under the jurisdiction of the city. The absolute statutory urban speed limit shall be 30 miles per hour in streets and 15 miles per hour in alleys. The absolute statutory nonurban speed limit shall be 55 miles per hour. In addition to any fines or other penalties provided by statute or by this Code, any person found operating a vehicle in excess of the limits stated herein shall be subject to a fine of not less than [\$50.00] *\$100.00* nor more than [\$100.00] *\$200.00* for the first offense, and not less than [\$100.00] *\$150.00* nor more than \$300.00 for the second offense, and not less than [\$100.00] *\$200.00* nor more than \$500.00 for the third and each subsequent offense within a given three-year period.

9-24-010 Stop Signs.

(a) Whenever city council by ordinance designates a street or portion thereof as a through street, the commissioner of transportation shall place and maintain a stop sign on every street intersecting the through street unless traffic at any such intersection is controlled by traffic-control signals; provided, however, that at the

intersection of a through street and a heavy-traffic street not so designated, stop signs shall be erected at the approaches of either or both of the streets as may be determined by the commissioner upon the basis of an engineering and traffic study. The commissioner is hereby authorized to determine and designate intersections where particular hazards exist upon other than through streets and to determine whether vehicles shall stop at one or more entrances to any such intersections and to erect a stop sign at every such place where a stop is required. The commissioner is also authorized to erect stop signs at marked crosswalks between intersections where in his judgment a stop is required to protect pedestrian traffic. (b) When stop signs are erected as herein provided, every operator of a vehicle shall stop the vehicle at the sign or at a clearly marked stop line before entering the nearest crosswalk, if any, or the intersection, except when directed to proceed by a police officer or traffic control aide.

(c) Any person violating this section shall be fined no less than [~~\$75.00~~] *\$150.00* and no more than \$300.00 and may also be required to perform reasonable community service.

9-40-120 Obstruction Of Intersection Or Crosswalk Prohibited.

Notwithstanding any traffic-control signal indication to proceed, no operator of a vehicle shall enter an intersection or crosswalk unless there is sufficient space beyond such intersection or crosswalk, in the direction in which the vehicle is proceeding, to accommodate the vehicle without obstructing the passage of other vehicular traffic or pedestrians.

Any person violating this section shall be fined no less than \$100.00 and no more than \$200.00 and may be required to perform reasonable public service.

SECTION 6. This ordinance shall take effect thirty (30) days after its passage and publication.

Rules Suspended -- AMENDMENT OF TITLE 2, CHAPTER 92, SECTIONS 320 AND 610 OF MUNICIPAL CODE OF CHICAGO BY ESTABLISHMENT OF INCREASE IN BASE (LIVING) WAGE RATE, INCLUSION OF AUTOMATIC MECHANISM FOR FUTURE RATE ADJUSTMENTS, ADDITION OF ENFORCEMENT MECHANISMS AND IMPLEMENTATION OF VARIOUS TECHNICAL CHANGES.

Alderman Munoz moved to *Suspend the Rules Temporarily* for the immediate consideration of and action upon a proposed ordinance, sponsored by Aldermen Munoz, Granato, Tillman, Preckwinkle, Hairston, Lyle, Beavers, Stroger, Beale, Pope, Balcer, Olivo, Burke, T. Thomas, Coleman, L. Thomas, Murphy, Rugai, Troutman, DeVille, Zalewski, Chandler, Solis, Burnett, Carothers, Wojcik, Suarez, Matlak, Mell, Austin, Banks, Mitts, Allen, Laurino, O'Connor, Natarus, Daley, Hansen, Levar, Shiller, Schulter and Stone, amending Title 2, Chapter 92, Sections 320 and 610 of the Municipal Code of Chicago by providing for an increase in the base wage rate certain city contractors are required to pay their employees. The motion *Prevailed*.

Alderman Munoz then presented the following proposed ordinance:

WHEREAS, Living wage ordinances recognize that an honest day's work should be rewarded with an honest day's pay, and that city governments should not contract with employers who pay poverty-level wages; and

WHEREAS, Enlightened business leaders have long realized that paying employees a living wage is good for business by creating a stable and productive work force that leads to satisfied clients, reliable customers and stronger communities; and

WHEREAS, Hard-working people who earn enough to afford the necessities of life for themselves and for their families buy more goods and services, thereby stimulating the growth of the local economy; and

WHEREAS, In recent years, fifty-three (53) cities in the United States have adopted living wage ordinances to improve the quality of life of their lowest-wage residents, including Baltimore, Boston, Portland, Detroit, Los Angeles, Minneapolis, San Francisco and Milwaukee; and

WHEREAS, Studies have shown that wage increases caused by living wage ordinances make it less likely that families with a living wage worker will live in

poverty, and that the overall effect of living wage laws is to decrease poverty among urban families; and

WHEREAS, According to 2002 United States Department of Health and Human Services figures, payment of wages of Nine and 5/100 Dollars (\$9.05) per hour barely exceeds the federal poverty level for a family of four (4); and

WHEREAS, The City of Chicago living wage ordinance should be updated to reflect the most recent federal poverty standards; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

Section 2-92-320 of the Municipal Code of Chicago, passed on July 29, 1998, and published on page 75803 of the *Journal of the Proceedings of the City Council of the City of Chicago* is hereby corrected by deleting the language in brackets and by inserting the language in italics, as follows:

2-92-320 Ineligibility For Award Of Contracts.

No person or business entity shall be awarded a contract or subcontract if that person or business entity:

- (a) has been convicted of bribery or attempting to bribe a public officer or employee of the City of Chicago, the State of Illinois, or the federal government or any state or local government in the United States in that officer's or employee's official capacity; or
- (b) has been convicted of agreement or collusion among bidders or prospective bidders in restraint of freedom of competition by agreement to bid a fixed price, or otherwise; or
- (c) has made an admission of guilt of such conduct described in (a) or (b) above which is a matter of record but has not been prosecuted for such conduct[.];or
- (d) *has violated Section 2-92-610.*

For purposes of this section, where an official, agent or employee of a business entity has committed any offense under this section on behalf of such an entity and pursuant to the direction or authorization of a responsible official thereof (including the person committing the offense, if he is a responsible official of the business entity), the business entity shall be chargeable with the conduct. One business entity shall be chargeable with the conduct of an affiliated entity. For purposes of this section, business entities are affiliated if, directly or indirectly, one controls or has the power to control the other, or if a third person controls or has the power to control both entities. Indicia of control include, without limitation: interlocking management or ownership; identity of interests among family members[.]; shared

facilities and equipment; common use of employees; or organization of a business entity following the ineligibility of a business entity under this section, using substantially the same management, ownership or principals as the ineligible entity.

Ineligibility under this section shall continue for three years following such conviction or admission *or violation of Section 2-92-610*. The period of ineligibility may be reduced or waived by the chief procurement officer, upon the written application of the ineligible person or business entity, supported by documentation of either or both of the following reasons:

- (i) reversal of the conviction or judgment on which the ineligibility is based, unless the conviction or judgment is based on an admission of conduct described in subsection (a) or (b) above; or
- (ii) bona fide change in ownership and/or control of the business entity, or other mitigating factors sufficient in the judgment of the chief procurement officer to remove the conditions giving rise to the conduct that led to the ineligibility. Mitigating factors may include, without limitation: disciplinary action against all persons responsible for the acts giving rise to the ineligibility; remedial action designed to prevent a recurrence of the acts giving rise to the ineligibility; or a determination by the chief procurement officer that the past conduct of the business entity does not indicate a pattern or history of similar acts.

The chief procurement officer may also suspend the ineligibility of a person or business entity in order to allow execution of a contract with the person or entity, upon written application by the head of a city agency or department affected by the proposed contract, setting forth facts sufficient in the judgment of the chief procurement officer to establish:

- (i) that the public health, safety or welfare of the city requires the goods or services of the person or business entity; and
- (ii) that the city is unable to acquire the goods or services at comparable price and quality, and in sufficient quantity from other sources.

An application to reduce or waive the period of ineligibility, or to suspend ineligibility for a specific contract, shall be verified by the applicant. The determination to reduce or waive the period of ineligibility, or to suspend ineligibility for a specific contract, shall be made in writing and shall specify the reasons for the decision.

At this point in the proceedings, Alderman Burke requested leave of the body to include in the official *Journal of the Proceedings* his written comments regarding the foregoing resolution. Leave was *Granted*.

Alderman Burke then submitted the following written comments:

Mr. President, Ladies and Gentlemen of the Chicago City Council.

Chicago's distinction as the transportation Capital of America is a long tradition that demonstrates our urban vitality and remarkable geographical location at the heart of the nation.

Chicago used the natural resources of our waterways to build an urban miracle in the heartland, sustained by the commercial wonder that river and lake shipping brought about.

Before the American Civil War, the city's economy was boosted once again by the railroad miracle that made Chicago the rail hub of the nation.

And in the air age, Chicago's transportation primacy was bolstered with the development of O'Hare Field and the significance of Chicago's centrality as a critical air hub. That important distinction has been further extended through the city's longtime service as the home of United Airlines.

United is an important Chicago-based industry. They are an important Chicago friend. That is why I believe it is critical for us to be supportive of them during their present economic difficulties. I believe that our support of the resolution before us provides us with a concrete step in our assisting this vital Chicago-based employer and Chicago-based industry. In urging the Air Transportation Stabilization Board to expedite United Airlines' application for loan guarantees, I believe we are helping to support and sustain a business that has grown with Chicago and even helped to shape Chicago into the capital of the American heartland. Our longtime friendship and economic ties to United is a significant part of our history. They were there before O'Hare, when Midway was the air hub of Chicago. They were there during the transformation of Orchard Field, the small airstrip that the late Mayor Richard J. Daley transformed into the "miracle" of O'Hare. They were there in the construction of the nation's most innovative and elegant air terminal, Helmut Jahn's vast architectural masterpiece of public space, the United Terminal at O'Hare.

I urge all my colleagues in the Council to support this resolution. It is a practical step that we can take in helping a longtime business partner and friend restructure itself financially and stabilize its economic vitality.

United Airlines is important to the larger life of Chicago's business community. Countless Chicago corporations and business enterprises depend upon the convenience and ease that United's Chicago hub status brings. It is a boom for Chicago business travelers and for Chicago tourist travelers. I remember how significant this very point was during the discussion with Boeing regarding their

considerations in relocating to Chicago. Supporting United Airlines at this critical moment in their history is important to the economic viability of our city. It is good for United Airlines. It is good for Chicago.
